

LEVEE BREAKS---2000 LIVES IN PERIL

RUSSIANS ACTIVE BLACK SEA PORT NOW THREATENED

Turks Flee Westward in Disorder Before Advance of Czar's Armies.

Later Advances Do Not Sustain the Early Claims of Large Number of Prisoners Taken.

Activity Is Marked in Galicia—Petrograd Reports Repulse of Austrian Attacks.

London, February 19. — While no news has been received of organized resistance by the Turks in the vicinity of Erzerum since that Turkish stronghold was taken by the Russians, Petrograd advices indicate that it was thought possible the Turks would make a stand on the western edge of Erzerum Valley, eleven miles from the city.

It is not thought probable, however, that they were able to erect any powerful fortifications there. The latest Petrograd official statement reported the Turks fleeing in disorder. Details from the Russian side indicate that there were no large captures of men when the fortress fell.

The bulk of the Turkish troops apparently were well on the retreat westward at the time the inner forts were taken, only the rear guard taking part in the last day's fighting.

Reinforcements which the Turks were sending to Erzerum are reported to have been five or six days' march distant when the city was surrendered.

Meanwhile, the Russians are active along the Black Sea coast to the north, a Sebastopol dispatch reporting the bombardment of Vitzes, 15 miles east of Trebizond.

A Russian advance landward in the direction of Trebizond, on the coast northwest of Erzerum, already has been unofficially reported.

There appears to be somewhat greater military activity in Galicia than for some days past. Petrograd reports an Austrian offensive on the Raster River, an attack being launched after intensive artillery preparation. The assault was repulsed, it is declared.

Indications that some important military movement by the Germans may be in preparation on the western front are furnished by advices from the Belgian frontier, received in Amsterdam.

Heavy troop movements have been in progress in south and central Belgium, the dispatch says.

BARON ASTOR
Former American, Now British Peer,
Takes Seat in Commons.

Photo by American Press Association.

Long trains, carrying artillery and infantry are being dispatched along the railroads to the west and south.

THE LETTERS OF CRONES AT CHICAGO

Boasts of Attempt to Cause Death of Banqueters.

Chicago, February 19. — Photographic copies of the first letter to a New York newspaper in which Jean Crones boasted of having poisoned the soup at the banquet given Archbishop Mundelein here last week, and a photograph of three men, one supposed to be Crones, were received from New York today by Captain of Detectives Hunt.

Employees in the kitchen of the University Club, where Crones was assistant chef, will be asked to identify his supposed photograph.

EXPLOSION OF LANTERN A MENACE

Bristol, Va., February 19. — Explosion of a lantern early today set fire to a chemical tank at the plant of the Federal Dyestuff & Chemical Company, near here.

Officials say only one building was damaged, although several were threatened with destruction.

First reports were that the entire plant, valued at several million dollars had been destroyed.

Grave Apprehension Felt for Safety of People Marooned Around Newellton

Mississippi Breaks Through Levee at Buck Ridge Plantation.

Crest of Flood Waters Will Not Be Reached for One Week Yet.

By Associated Press.

New Orleans, La., February 19.—Increased apprehension was felt today for the 2,000 or more persons marooned around Newellton without food and with but scant shelter.

Most of them are negro plantation laborers, unable to reach safety when the Mississippi river broke through the levee at the Buck Ridge plantation.

The crevasse is nearly 700 feet wide. The water is pouring through the crevasse 4 miles an hour.

A quarter semi-circle with a radius of 25 miles is flooded from 6 to 15 feet, while beyond this another 25 miles is covered with water from a few inches to 1 and 2 feet deep.

The flood will not reach its climax for at least a week, authorities predict.

RELEASED MEN SORE AT GERARD

By Associated Press.

London, Feb. 19.—Released prisoners from the Ruhleben camp who have returned to England are indignant over the last report of the American Ambassador at Berlin, in which he made the statement: "The British taxpayer is paying a large sum in wages because the Ruhleben prisoners are unwilling to do the fatigue work of the camp."

This charge is called unjust and ungenerous by the released prisoners, who say that Ambassador Gerard has no real knowledge of working of the camp.

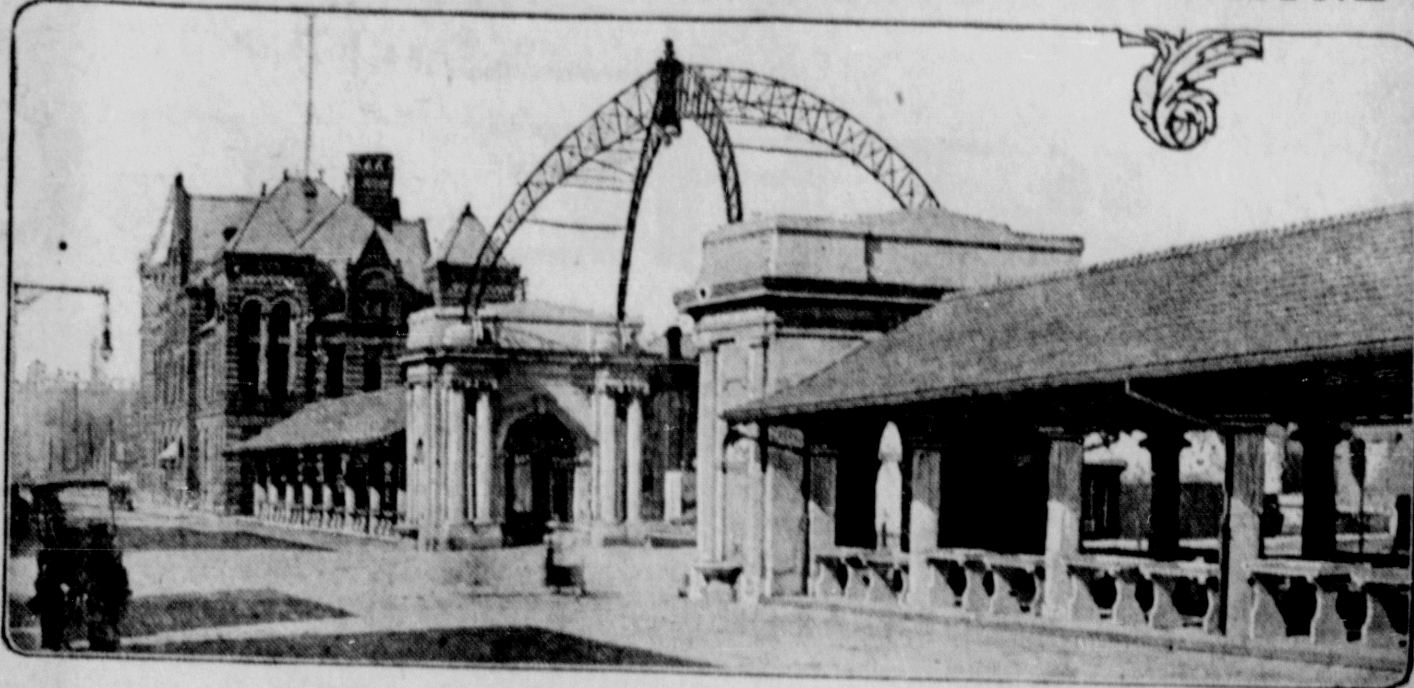

It is true that the British government pays five marks a week to each civilian prisoner in the camp. But each receipt states explicitly that the money must be repaid if asked for by the British Chancellor of the Exchequer. At one time, the released prisoners say further, this sum did help the inmate of the camp to live, but with butter at four marks a pound and other foods in keeping, five marks does not go very far. In fact, the prisoners rely almost entirely on parcels from England.

THREE MILLIONS FOR EMERGENCY

By Associated Press.

Washington, February 19. — A \$2,750,000 emergency appropriation for immediate necessary repairs of machinery in battleships, torpedo destroyers and submarines, to increase the supply of mines and to equip battleships with anti-aircraft guns, was asked of Congress today by Secretary Daniels.

MUNICIPAL MARKET HOUSE AT FORT WAYNE

Fort Wayne, Ind., has one of the most scientifically arranged city market places in the United States. The market wagons back up to the curb along the house, and purchasers have the use of the passage through it. Five foot concrete tables between the columns are used by the marketmen for display purposes.

STONE DEFENDS WILSON

By Associated Press.

Washington, February 19.—Chairman Stone of the Foreign Relations Committee today replied to criticism of President Wilson and Secretary Lansing for withholding part of the correspondence in regard to the Mexican situation asked for in Senator Fall's resolution.

Chairman Stone declared there were abundant precedents for such action, and cited the action of President Taft and Secretary Knox in withholding correspondence between the United States and Colombia with relation to the partition of Panama.

FRUITLESS ONSLAUGHT

By Associated Press.

Berlin, February 19. — Another fruitless attack by the British south-east of Ypres, where the Germans recently captured several hundred yards of trenches, was announced today by the War Office.

RECEIPTS BOOMING

By Associated Press.

Columbus, February 19.—Receipts of the Secretary of State's department for 1915 were \$1,547,228, an increase of \$554,537 over the record of 1914, according to a report made public today by Secretary of State Hildebrandt.

The receipts came largely from incorporation fees and automobile licenses. The pay roll for 1915 was \$79,751, a saving of \$3,521 over 1914.

The report stated that during the administration of Mr. Hildebrandt a new office system was installed in the Bureau of Vital Statistics, resulting in a saving of \$30,000 in expenses and bringing up to date reports on vital statistics, which one year ago had not been completed for 1912.

KAMERUN CONQUERED

(By Associated Press)

The complete conquest of Kamerun, the German colony in equatorial Africa, was announced officially today.

ANOTHER DEFEAT FOR THE BRITISH

By Associated Press.

Constantinople, February 19.—An attempt by British forces in Mesopotamia to cross the Tigris River below Kut-el-Amara was repulsed after a battle of three hours, the War Office announced today.

The British, in their retreat, were pursued to their second line of entrenchments.

CARRANZA WILL FOLLOW THE U. S. PLAN

By Associated Press.

Washington, February 19. — The Carranza army, estimated at 100,000 men, is to be reduced gradually and supplemented by a national guard similar to the national guard of the United States.

The Mexican Embassy announced that the plan is to be put into execution as soon as details can be worked out.

HOLD 2 MEN FOR KILLING

By Associated Press.

Chicago, February 19.—Two farm laborers, both foreigners, arrested here today for the murder of a fellow workman near Benton Harbor, Michigan, had such elaborate plans for the crime that they had even dug their victim's grave, according to a confession which police say they have obtained.

A wife of one of the prisoners is said to have made the confession. Robbery is given as the motive for the crime, and the men are alleged to have obtained \$55 from their victim.

EVIDENCE OF GUILT INCREASES

Coroner Receives Report of Chemists Showing Poison Was Administered By Accused.

By Associated Press.

Chicago, February 19.—A report made to the coroner today by chemists shows that the poison which caused the death of Miss Marian Frances Lambert, Lake Forest high school girl, was the same as the poison, crystals of which were found under the finger nails of the dead girl.

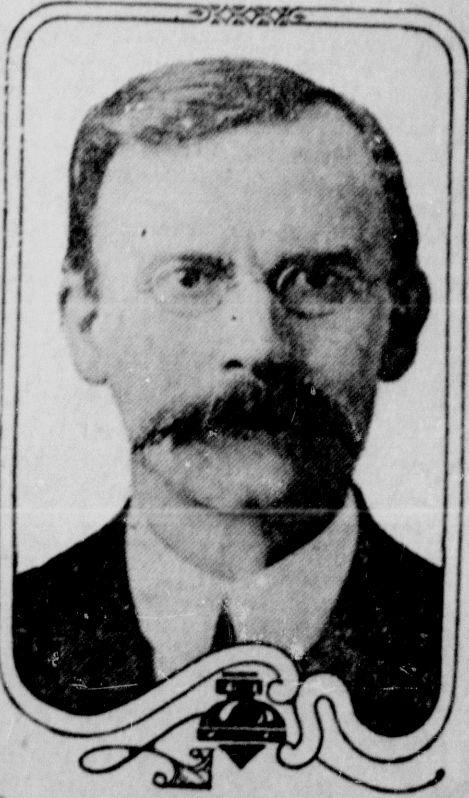

The report is to be read Monday at the inquest into the cause of the girl's death.

An analysis is being made of poison crystals found in an ash pile at the home of Will H. Orpet, who is charged with the murder of Miss Lambert.

The State contends that Orpet, who was a former admirer of the girl, made a secret appointment with her in the woods where body was found, and did not leave her until after she was dead.

The Narrow Margin

What a frail thread, after all, the business, manufacturing and social affairs of the communities throughout the land hang upon?

We go along day by day depending upon the inanimate machine to do its duty and so much confidence do we place in the integrity of the machine that scarcely a thought is given to what would happen if the machine should go wrong.

We guard against human frailty and human omissions, but we expect the machine to go along day after day, week after week, ad infinitum with never a fear of break down until it comes.

These machines, which organized society depend upon, are strong, tireless and honest, but once in a while even they fail. It is then that we realize just how much of faith and just how much we have grown to depend upon them and just how narrow the margin has been, during all the period of our feeling of security that comes from accepting things as a matter of course.

Last Thursday evening a little bit of a valve bursted at the electric company's plant. It happened to be the valve on the pipe which conveyed the water to the boilers. The valve wasn't larger than a good sized goose egg, but when it bursted the whole plant was out of commission, the city was in darkness, printing presses stopped, elevators halted, moving picture machines stalled, stores in gloom, residences in darkness and so on all through the long list.

A city of over ten thousand going placidly along about its business and pleasure depending upon the faithfulness of one little valve to be true to its trust. It was true until the metal gave way.

True the "accident" could not have been guarded against and the long trusted valve was soon replaced by a new one.

But the point of the whole occurrence is: How much we expect of the inanimate creations of our own brain and brawn and how absolutely dependant we become on the unthinking machinery.

The Cherry Hill School

Cherry Hill School is to be commended for its progressive spirit and energy in carrying out to successful completion modern innovations.

The Parents' and Teachers' club was first organized in this city under its auspices and the movement, which is one tending to draw into close personal relations, beneficial to both parents and children, is now well under way in all the schools.

Aided by exceptional surroundings, Cherry Hill has been able to put on entertainments of a distinctive character, worked up splendidly by the school management, at much labor and time outside of school hours, and is constantly attempting the forward march in whatever pertains to school activity.

For the first time, locally, a school minstrel is being put on by Cherry Hill.

The spirit of originality and ambition always deserves to be encouraged and especially when it is aroused in the interests of the public schools and the children.

Coming to It

Nothing has exerted a stronger influence to direct people's attention to the utter unfitness of present methods to present conditions, the cost and the waste of it all, than the present financial plight of the many cities of the state.

Almost every day there is some sort of a meeting of officials and public spirited citizens representing the cities of the state, bemoaning present conditions and seeking some method of relief.

It makes little difference by what name the suggested plan is called, the aims and the ideas, in every instance, are the same—to get away from politics and run the finances of the city on a business basis.

That total lack of the application of business methods to municipal affairs which has been the rule and not the exception in Ohio, especially marked since the splendid tax rate limit law became operative, would wreck any private business.

Just why business men—practical men of affairs—who could not tolerate such laxness of methods in their own private affairs, will allow them to exist in public affairs is one of the unsolved mysteries.

At the conference held in connection with the meeting of the Committee on Tax reform of the Municipal League in Columbus Friday the plan of "syndicating" the cities of the state so as to purchase to better advantage, was suggested.

That's a step in the right direction. It would, if adopted, solve one problem but only one.

The people in the cities of Ohio are going to get away from waste and graft and politics in their municipal affairs and get on a business basis.

They will be compelled to do so. We have reached the point where legislation will not help us. We must begin at the source and practice economy which will bring more of every thing save waste.

Poetry For Today

THE TRUCE.

One made this prayer: "Sweet Father Christ, I crave
Some little lazy peace to follow death,
A sunny bank where tranquil willows wave
Wind-silvered leaves, and time to draw my breath.
Beside a stream knee-deep in arrow-head
And dear forget-me-not; a gentle spot
Where I may thank my God that I am dead
And all the traffic of the world forgot.

"There, dreamless, I shall lie so still—
—so still.
The cautious moor-hen piloting her brood
Will heed me not, the heron stir no quill
For fear of me in that kind solitude,
O grant this truce from pain, this moment's rest,
Before I brace my soul to further test."

—W. M. Letts in the Westminster Gazette.

FORECASTING THE ANSWER FROM BERLIN

German Pledge Not to Apply to Armed Merchantmen.

Washington, Feb. 19.—Count Von Bernstorff, it was learned, has already outlined to the Berlin government what he believes the German reply to the United States should be. He has suggested that the Berlin foreign office instruct him to call to Mr. Lansing's attention the fact that in the first formal note of the United States demanding satisfaction in the Lusitania case, the note of May 15, which Secretary Lansing has heretofore referred to as embracing the full demands of the United States, only unarmed vessels were referred to, not only in describing the character of the Lusitania, but also with respect to the assurances which the United States was demanding as to the future conduct of German submarine warfare. Therefore, the ambassador would have his government observe that it is a matter of considerable surprise to Germany that at this late day the United States should suddenly extend the scope of its demands to cover guarantees for armed merchant vessels.

If the ambassador's suggestions are followed the memorandum from Berlin will go on to inquire of the United States how it proposes to draw the line of distinction between ships armed for offense and those armed merely for defense. Germany, the memorandum will say, finds it impossible to base such a distinction on the mere character of the armament, especially since Germany, from an examination of drafts which it has obtained from the secret orders of the British admiralty to their merchantmen, is convinced that, regardless of the character of armament they carry, all merchant ships have been instructed to fire on submarines at sight.

There is every indication that the developments of the last few days will make the situation more tense in Germany. This, it is contended, is certain to be the case if the German people would justly or unjustly get the impression that the United States has changed front after having obtained Germany's concessions on the Lusitania case.

ANOTHER CLUE

(By American Press)

Chicago, Feb. 19.—A bottle found in the mud at the Sacred Heart crossing of the Chicago and Northwestern railroad, a few hundred feet from the three oak trees where the body of the Lake Forest school girl, Marian Lambert, was found a week ago, is now in the possession of State's Attorney Dady of Lake county. The vial is supposed to have been the container of the poison that killed the girl.

Ever since it was learned that Will Orpet, the University of Wisconsin sophomore, purchased a two ounce vial from C. F. Hassinger, a druggist of Madison, Wis., there has been a close search for the bottle. It was regarded as the necessary link in the chain of circumstances that has bound Orpet to the crime. The bottle was found by Sheriff Elmer Griffin of Lake county.

PINK PAJAMA WIDOW GETS SUBSTANTIAL SUM

(By American Press)

Canton, O., Feb. 19.—A jury in the \$50,000 breach of promise suit brought by Mrs. Elia Canine against R. R. Jacobs of Pittsburgh awarded Mrs. Canine a verdict of \$10,500. The jury was instructed not to consider whether or not a common law marriage had been entered into when considering the verdict.

ADmits TO MURDER

(By American Press)

Montreal, Feb. 19.—Isabel Dominican, the Martinique negress, has admitted murdering her mistress, Mrs. Kate Matthews, in her home here a week ago. She said: "I was asleep in bed when she came in and struck me. She made me get up, then she hit me again. I grabbed her by the throat—that is all."

GETTING A MOVE ON

(By American Press)

Chicago, Feb. 19.—An increase of 22,943 new families in Chicago, 10,983 new buildings and 373 new business concerns during the past year was reported in the annual statement of the city delivery division of the Chicago postoffice, submitted to Postmaster Daniel Campbell.

HAYS--THE PHOTOGRAPHER IN THIS TOWN

WOMAN INJURED IN B. & O. WRECK MAY BRING SUIT

Attorney Chas. D. Heald, of the firm of Burkhart, Heald & Pickrel, of Dayton, was in this city Friday gathering information with a view to bringing action against the B. & O. railroad or the C. H. & D. railroad for a client in Pittsburgh, who is said to have suffered permanent injuries when a C. H. & D. freight struck the early morning west-bound B. & O. passenger train at the crossing in this city.

The client is Mrs. Lydia Robb, who, with her husband, Clifford Robb, were in the sleeping car when it was struck by the C. H. & D. and hurled down the embankment.

Mrs. Robb, it is claimed, had undergone an operation sometime previous but, acting upon the advice of her physician, who is said to have pronounced her sufficiently recovered to make a trip from her home in Pittsburgh to some point west of this city, was on her way to the home of her friends when the wreck occurred.

Mrs. Robb, it seems, claims that when the train was struck and the coach in which she was riding was carried down an embankment, that she suffered injuries which have since become of a permanent nature, and that her health has been forever impaired as a result.

Mr. Heald went over the scene of the wreck, questioned various persons who had seen the wreck, obtained photographs of the catastrophe and copy of the Herald containing a write-up of the wreck.

Hear our Challenge Sextett, Feb. 21, 7:30, High school auditorium.

EVANS LANDS BIG ORDER FOR VENEER

The Evans Veneering plant of this city, which had not been in operation for sometime, is now running full capacity and the owner, Mr. Samuel Evans, expects to install an additional mill thus doubling the capacity of the plant in the near future.

Mr. Evans recently booked a mammoth order for oak veneer and is now engaged in filling the order, one car load having been shipped out this week and another carload will follow within a few days.

It was rumored that the order booked reached well up toward \$50,000, but this is not confirmed by Mr. Evans, who simply stated that the order was a large one.

The plant in this city turns out the raw material which is then shipped to the user. The plant was installed in this city some two years ago, and is located on Sycamore street, opposite the Coffman Planing Mill.

Your credit rating is being taken now. See Herald Monday.

AFFICTED MAN HARD TO HANDLE

Charles Knipe, who was ordered committed to the O. H. E. at Gallipolis, was landed in that institution Friday, after giving three men who had him in charge, a series of tussles which they will not soon forget.

At the early morning B. & O. train he became very violent, and Deputy Sheriff Edward Jones, Deputy Roberts and Officer Baughn had their hands full until the man was securely strapped. On the B. & O. train he smashed a window, but after being placed on the Hocking Valley train he quieted down somewhat, although requiring constant attention, and at the O. H. E. he was immediately placed in a padded cell.

\$177,497 COST OF CLINTON COURTHOUSE

Clinton county's new court house will cost \$177,497, according to the bids submitted, the Western Building Company, of Buffalo, N. Y., making the lowest bid as above given.

The lowest bid for the jail was made by the Georgeson Brothers of Hamilton, and was for \$21,499. Mechanical equipment will cost \$21,096 and wiring will cost \$2758, making a grand total of \$222,751 for the entire work.

Latest hits from Broadway; High School Auditorium, Feb. 21 at 7:30.

Your credit rating is being taken now. See Herald Monday.

PLANS COMPLETED FOR ACTIVE WORK

The executive session of the county W. C. T. U., held at Welfare rooms Friday, opened at 10 a. m., Mrs. Alice Taggart, county president, presiding, and with the following county officers present:

Mrs. Alice Taggart, county president; Mrs. Carrie Willis, treasurer; Mrs. Laura Pine, corresponding secretary; Mrs. Pearl Darlington, president Sugar Grove Union; Mrs. Alice Roberts, president Staunton Union; Mrs. Mary Stafford, president Washington C. H. Union; Mrs. Cora Foster, president Bloomingburg Union; Mrs. Hallie King, president Cook Union; Mrs. Alice Adams, superintendent of evangelistic and peace department; Mrs. Mada Hughey, superintendent of Medical temperance; Mrs. Augusta Haines, superintendent of flower mission work; Mrs. John VanGundy, superintendent of Fair D. and hurled down the embankment.

Mrs. Frank Christopher and Mrs. A. E. Baum, guests.

The meeting was in the nature of a mid-year session for general discussion of plans for future work. The plan of the work of the Ohio W. C. T. U. was read and parts of it adopted for the county unions.

It was decided to bring a state worker, probably Mrs. Augusta Steiner, of Lima, sometime in May, to hold an institute at Sugar Grove in connection with the Good Hope, Staunton and New Martinsburg unions—the four unions to defray expenses jointly. She would also visit Cisco schools in Wayne township and give talks to the children on "Purity." It was urged that members from all different unions visit the various schools throughout the county and make short addresses to the pupils and distribute literature among them.

The meeting decided to hold a County Convention in this city early in September, whether or not an outside speaker be brought for that event to be arranged later.

It was ascertained that \$10 had been sent from the different unions of the county to aid in the expenses of the temperance campaign last fall.

The meeting was in progress from 10 a. m. until 3 p. m. with a half hour recess at noon for lunch at the Hughey Confectionery.

A beautiful poem, "Frances E. Willard," was read by Mrs. Taggart.

Your credit rating is being taken now. See Herald Monday.

"CHAIN GANG" NOT ANXIOUS FOR WORK

A part of the city's "chain gang," or those convicted of crime and who agreed to work out their fines under the Service-Safety Director, has been very negligent in carrying out the agreement entered into with Mayor Oster, and as a result the mayor is seriously considering sending the shirkers to the workhouse where they will have no such opportunity to quit work when they please.

During the past week only one of the four or five fellows has been on the job all of the time, one or two of the others sending in reports that they were ill, one making complaint that his shoes were no good and the other neglecting to inform his employer why he failed to put in an appearance and cut down the \$200 which stands between him and liberty.

That silver voiced tenor, Mose Ellis, in latest song hits. Cherry Hill Minstrels.

CLAM SHELL DREDGE HAS BEEN PURCHASED

Messrs. E. A. Elies and H. C. Hosiier have purchased a modern clam-shell dredge, which will be used in removing the sand and gravel from the McLean land bounded by the C. H. & D., the Pennsylvania and Elm street.

The deal for the monster dredge was closed Friday, and it will be shipped to this city early in March, erected at once and placed in operation as quickly as possible.

The total weight of the dredge is 36,000 pounds, and the huge "clam-shell" scoop weighs 2950. It will be electrically driven and capable of removing sand and gravel 30 feet underneath the surface of the water. It has a capacity of 500 yards of material each day.

JUDGMENT TAKEN

The Fayette County Bank, represented by Post & Reid, has taken judgment in common pleas court against Paul Johnson and others, in the sum of \$478.25 on a promissory note.

The Washington Herald

Has Been Selected as One of
"Newspaperdom's Winning Dailies"
(The Only Washington Newspaper So Honored)

We feel sure that Washington advertisers will be interested in knowing that the "Herald" has been selected as one of Newspaperdom's "Winning Dailies"—and that the selection was made after studying the features which we believe entitled it to this distinction. Newspaperdom in its issue of February 10th said:

"The only newspaper in the Washington section of Ohio to be granted Newspaperdom's 'Winning Daily' emblem was the 'Herald.' Newspaperdom found that the 'Herald' is supreme in local and foreign advertising; that its circulation is much larger than that of any other daily in its field; that it is the only newspaper given a definite circulation rating by the 'A. N. A.'; that it is a substantial newspaper, furnishing the people a complete news service; that local advertisers endorse it unanimously as a result-producer; that it gets a higher rate for its space; that it carries a large volume of foreign advertising, and that its advertising pages make up the 'meeting place' of advertiser and reader."

Newspaperdom congratulates the management of the "Washington Herald" upon the fact that the "Herald" is justly entitled to the honor we have given it—of being one of Newspaperdom's "Winning Dailies." Less than 200 newspapers in the United States have been given this classification, according to the acid test applied before making our final decision.

Inexpensive to Run and Easy to Drive—the New 3400 r. p. m. Chalmers

The mist of gasoline that whirls through the tiny perforation in the carburetor jet of the 3400 r. p. m. Chalmers, rushes into action that has changed the whole aspect of automobile engineering.

The conditions surrounding the manner in which its dormant energy is awakened, brought to life, and compelled to perform, explain the strange ability of this new car.

The six cylinders of its engine are small— $3\frac{1}{4}$ by $4\frac{1}{2}$ inches. The small area from which heat can be thrown away by radiation, reinforced by the incredibly short cooling process between the swift succession of its explosions, create maximum energy with minimum waste.

"Make her perform," said Hugh Chalmers to his engineers. "Get acceleration, long mileage on gas, activity."

The result—18 miles for every gallon of gas, anything up to 60 miles an hour, and supremacy of pick-up.

3400 revolutions per minute means that every gram of energy is wrung from every drop of gasoline that is

inhaled by the powerful suction of the motor pistons.

It means that when, at the point of highest pressure, a spark from the distributor ignites the oxygen of the air with the carbon of the gasoline, every mechanical condition is such that loss of energy is cut down to the lowest possible degree.

It means that the 3400 r. p. m. Chalmers gets twice the mileage on gas that many another high-speed engine will deliver.

The speed of its uncanny carburetion makes flight satin-smooth by bringing the explosions of gas so close together that you are unconscious of anything but an uninterrupted stream of might.

Unlike cars of superfluous might, the 3400 r. p. m. Chalmers has a pick-up so flexible that it's the first to make its get-away at the crossings, and the last to take another car's exhaust.

It's a cheap car to run and an easy car to drive.

SENATOR URGES INVESTIGATION

Declares Aviation Service Is "Contemptibly Inefficient."

MAKES OTHER CHARGES

Robinson of Arkansas Appears Before Senate Military Committee and Alleges That the Head of the Aviation Service Is Preventing Facts From Reaching His Superiors—Outline of the Testimony.

Washington, Feb. 19.—Before the senate military committee Senator Robinson of Arkansas made sensational charges against the army avia-

tion service, and coupled the charges to a demand for immediate inquiry by congress. He declared that the service was "contemptibly inefficient" and that its head, Lieutenant Colonel Samuel Reber, not only was making no effort to improve it, but deliberately was preventing the facts from reaching his superiors.

Senator Robinson also presented the committee with a mass of data, including photographic copies of letters which, he said, had been exchanged between Colonel Reber and Captain Arthur S. Cowan, commanding the aviation station at San Diego. At least part of this evidence was produced before the courtmartial at San Francisco, which recently tried Lieutenant Colonel Lewis E. Goodier, judge advocate general of the western department, accused of improperly altering certain charges filed by other officers against Captain Cowan.

The finding of this court now are in the hands of a special commission of army officers appointed by the acting secretary of war to make a report to President Wilson.

Senator Robinson read liberal excerpts from his photographs of letters and quoted Captain Cowan as writing to Colonel Reber that if the service ever came under investigation by anyone outside the signal corps it would be impossible to explain the "rotten way in which the work has been handled." Other letters were produced to show that favoritism was practiced in the promotion of men in the service.

HAVOC WROUGHT

(By American Press)

Syracuse, N. Y., Feb. 19.—Five persons were killed, at least a dozen others injured, some seriously, and heavy property damages was caused by an explosion in the Split Rock plant of the Semet-Solvay company. The plant, which has developed since the outbreak of the European war, is one of the largest in the country engaged in the manufacture of puric acid, which is used in explosives and synthetic dyes. The cause of the explosion has not been ascertained.

NICE ROW IS STAGED

Riotous Scenes In Oklahoma House of Representatives.

Oklahoma City, Okla., Feb. 19.—Representative Morris E. Bryant, Democrat, from Big Heart, knocked down Arthur Geissler, Republican state chairman, following riotous scenes in the house of representatives.

While the registration clause of the proposed election law was up for final passage in the house, Paul Nesbitt, Democrat, from McAlester, and Representative Sams, Republican, became involved in a row. Practically all the Republican and Democratic members of the house took part and hurled books. When the supply of books was exhausted the members resumed their seats. The section

passed, 53 to 34.

Representative Hensley went to the "side line" beneath the gallery and talked to Chairman Geissler, who had been admitted as a visitor. Bryant walked up to Geissler and said: "What right have you to be talking to a member of the house here on the floor?"

Geissler replied, "Beg pardon; what is your name?"

Bryant then knocked Geissler down and became lost in the crowd that gathered. Geissler regained consciousness in a few minutes and went up in the gallery. No further demonstration occurred.

PROMINENT MUSICIAN

Warren, O., Feb. 19.—Professor William H. Dana, head of Dana's Musical Institute and a musician of wide reputation, died here after a lingering illness.

JAPS ARE BUSY

(By American Press)

Manila, P. I., Feb. 19.—Negotiations are being carried on by Japanese interests for the purchase of the entire property of an American lumber company. The price is said to be \$1,000,000. Recently Japanese companies have made heavy purchases in various industries of the Philippine islands.

THE GIRL AND THE GAME

A STORY OF MOUNTAIN RAILROAD LIFE

6^{fr} FRANK H. SPEARMAN

AUTHOR OF "WHISPERING SMITH," "THE MOUNTAIN DIVIDE," "STRATEGY OF GREAT RAILROADS," ETC.

NOVELIZED FROM THE MOVING PICTURE PLAY OF THE SAME NAME. PRODUCED BY THE SIGNAL FILM CORPORATION.

Copyright 1915 by Frank H. Spearman

Continued from Yesterday's Herald

SYNOPSIS.

Little Helen Holmes, daughter of General Holmes, railroad man, is rescued from imminent danger on a scenic railroad, by George Storm, a newsboy. Grown to young womanhood Helen makes a spectacular double rescue of Storm, now a freight trainman, and of her father and his friends, Amos Rhinelander, financier, and Robert Seagrue, promoter, from a threatened collision between a passenger train and a runaway freight. Safebreakers employed by Seagrue, and Capelle, his lawyer, interrupted by Helen while stealing General Holmes' survey plans of the cutoff line for the Tidewater, fatally wound General Holmes and escape. Storm and Helen chase the murderers on a light engine and capture them. Storm has hidden the plans and manages to inform Seagrue where they are cached.

CHAPTER III.

The death of Helen's father disclosed at once the serious weakness of his monetary affairs. He had developed his valuable railroad properties without capital of his own adequate to finance them. He was the nominal head of great transportation projects; he had been, in truth, the brain and energy of these, but the actual control belonged to eastern bankers who had supplied the funds to put them through. And with General

TURKS RESISTING THE SLAV HOSTS

Turkish Army That Escaped From Erzerum Engaged.

SCENE NEAR FALLEN CITY

Austro-Hungarian Forces Operating In Albania Are Closing In On Durazzo—Military Activity Noted In The Vicinity Of Ypres—Trebizond Said To Be The Objective Of The Russians.

London, Feb. 19.—According to a dispatch received here from Budapest, a big battle is raging between the Russians and Turks west of Erzerum. Another dispatch declares that Raiburt, on the road from Erzerum to Trebizond, already has been captured by the Russians. The Russians, according to Petrograd advices, are pushing on toward the Pontine mountains.

This would indicate that the main Russian force is bent upon pushing its drive northward, with the important Black sea city of Trebizond as their ultimate goal. Raiburt is forty miles, and Trebizond 125 miles from Erzerum. The defenders of Erzerum, consisting of four army corps, fled to the west. First reports were that they abandoned the fortress in wild disorder, but later dispatches telling of violent fighting to the west indicate they retreated in order.

There has been considerable artillery fighting around the positions taken by the Germans recently from the British in the vicinity of Ypres and several attempts by the British to recapture lost ground by infantry attacks. Berlin says the attacks were repulsed with heavy casualties. With the exception of a French assault against the Germans south of the Somme, which Berlin also declares was put down, the artillery of both sides has been the sole instrument of warfare along the French front.

Austrians and Italians at various points are still engaged in artillery duels and occasional infantry maneuvers, but no notable victories have been won by either side.

In Albania the Austro-Hungarians, reinforced by Albanians, presumably irregulars, have occupied Kavaya, which lies eight miles southwest of Durazzo and three miles from the Adriatic sea. By the capture of this town it would seem that the Teutons nearly have Durazzo surrounded.

The gendarmes of Essad Pasha, provisional president of Albania, who defended Kavaya, made their escape from the town and fled on a ship into the Adriatic.

COMING SALES

THE NICARAGUAN PACT RATIFIED BY SENATE

United States Secures Canal Route and Naval Base.

VOTE ON TREATY, 55 TO 18

Sum of Three Million Dollars In Gold to Be Paid For Concessions Granted to This Country by the Government of Nicaragua—Treaty Also Grants Option of Renewing Ninety-nine Year Lease.

Washington, Feb. 19.—The treaty with Nicaragua, under which the United States acquires a strip of property in Nicaragua known as "the canal route," and also the right to establish a naval base on the gulf of Fonseca, was ratified by the senate by a vote of 55 to 18.

For this concession the United States agrees to pay Nicaragua \$3,000,000. Fifteen Republican senators voted to ratify the treaty and five Democratic senators voted against ratification.

The grants to the United States by Nicaragua under the terms of the treaty comprise "the executive proprietary rights necessary and convenient for the construction, operation and maintenance of an interoceanic canal by a Nicaraguan route, the lease for ninety-nine years of Great and Little Corn Islands, in the Caribbean sea, and the right to establish a naval base on the gulf of Fonseca." The treaty also grants an option to the United States of renewing the leases and grants for a further term of ninety-nine years. The territory leased is to pass under the laws and sovereignty of the United States. The property granted was not made free of taxes in the treaty proper, but the resolution of ratification carried language by way of an amendment which renders the property "forever free from all taxation or other public charge." The consideration flowing from the

MURDER CHARGE FACED BY YOUTH

Ironton, O., Feb. 19.—Frank C. Mowery, a local butcher's helper, who has been located at West Port, a suburb of Cleveland, for the past eighteen months, was arrested here in connection with the murder of Estella Hoxey, victim of the Millbrook Lake mystery at Portsmouth. The police admit that the evidence against Mowery is only circumstantial. On Jan. 29 he telegraphed Miss Hoxey to meet him in Portsmouth. Mowery admits meeting her on that day, but denies any knowledge of the murder.

RUMORS OF THE END

Paris, Feb. 19.—There is reason to believe that Germany has made new peace proposals to the entente allies. The report is that Germany has declared its willingness to re-establish generally the status before the war, to cede part of Lorraine to France and guarantee autonomy for Alsace. As to the terms offered on the other fronts there is no information. It is understood that the proposals were accompanied with the threat that Germany would again attempt to crush France if the terms were refused. It is possible that these proposals were immediately refused by the allies.

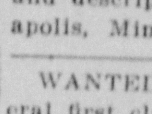

Three possible courses confront the Kaiser's staff. The older and more cautious element favors the adoption of a pure defensive, holding fast the present lines and defying the entente allies to dislodge the defenders. The younger, more reckless element is for taking a gambler's chance and staking everything on a great offensive on the western front. Even the advocates of this course realize that such an effort would bring an unparalleled orgy of bloodshed, but they argue that if successful it probably would end the war. Between these two extremes is a third element, which favors taking the offensive against Russia.

COAL RATE PROTEST

Athens, O., Feb. 19.—Protests against present and proposed intra-state coal tariffs of the Hocking Valley Railway company were sent to the state utilities commission by Charles H. Bryson, secretary of the combined business interests of a dozen towns and cities in the Hocking coal field. A reduction of the present rate of 85 cents is asked.

FOR SALE — Clover and timothy seed. Junk & Willett Hdw. Co. 28 t6

FOR SALE—Buttermilk for feeding purposes. Fayette County Creamery. 58t6

GLOOMY OUTLOOK FOR A HATCHERY

There is hardly a probability of Fayette county obtaining a fish hatchery, but there is assurance that a number of game preserves may be established in the county if farm owners will come forward and guarantee protection for the game placed upon such preserves.

The committee appearing before the state board, consisted of Hon. Frank C. Parrett, Chas. Allen, Judge Rell G. Allen and Earl McLean, Mr. Reid not being present.

General Speaks confirmed Dr. Kergin's gloomy prophecy of a hatchery and was anxious to take up the problem of "game preserves." He stated that where adequate protection was afforded and surroundings were proper, the state could furnish game of various kinds and pay the expense of feeding the same when necessary. He said Fayette county was exceptionally adapted to the work for various reasons.

THIEVES BUSY ON SUNNYSIDE

Some unknown thieves have been working overtime on Sunnyside during the past two weeks, with the result that a large number of persons have lost clothing, packages left by deliverymen, jewelry, small change, chickens and numerous other articles which can be picked up by the small thief.

Repeated complaints have been made but so far no arrests have been made, and the thieving continues without cessation.

Indications are that the rascals started into the work by pilfering about premises while the occupants were attending the Sunnyside meetings or up town and have increased in their boldness until now they are operating in broad daylight.

ALLEGED THIEVES WILL FIGHT CHARGE

John Boone and Warren Kilgore, of Jeffersonville, were brought to this city in custody of officers, Friday afternoon, to face charges of stealing two tons of coal from the D. T. & L. on the night of Feb. 14th, the charge having been filed by T. J. Whittiker.

The two men asked for a trial and their cases were set down for Friday, Feb. 25th. Each gave bond in the sum of \$200 for their appearance before the court at that time.

MAN IS ARRESTED ON SERIOUS CHARGE

Hugh Hudnell, white, was taken into custody by the police, Saturday morning, facing a statutory charge in which the name of Ethel Phillips plays a prominent part. The parties had been living together in

a house near "McClureville," it is charged. It is further charged that two small children lived in the same room with the couple.

The man's trial was set for Monday and his bond was fixed at \$500, failing to give which he was taken to the county jail.

WELL KNOWN FARMER DIES AT WAVERLY

Mr. George Gregg received word Saturday morning of the death of his uncle, Mr. Alexander M. Gregg, of dropsy, at his home in Waverly, Saturday night.

Mr. Gregg was a well known farmer and stock buyer of Waverly and had a large acquaintance in Fayette county, where he frequently visited.

The funeral services will be held Tuesday afternoon at one o'clock. Mr. George Gregg and family and Mr. John G. Couch of Bloomingburg, who is a nephew, and daughter, Mrs. F. E. Eichelberger, of Jeffersonville, expect to attend.

Your credit rating is being taken now. See Herald Monday.

FIRE PROTECTION IS STILL AGITATED

Agitation is on in Jeffersonville for a series of cisterns to hold water for fire fighting purposes, and a motor truck with pumps as a means of giving proper fire protection.

The cost of a water works system was found to be upward of \$30,000 and that has been abandoned temporarily while the chain of cisterns and fire truck are now discussed.

Hear that disciple of mirth, Solars, at High School Auditorium, Feb. 21st.

JAMES W. WILLIS DIES SUDDENLY

Mr. James W. Willis died suddenly at the Vance Hotel, in Bloomingburg, Saturday afternoon.

He was the son of the late James M. Willis and is survived by a wife, one sister, Mrs. Humphrey Jones, a nephew, Hon. J. M. Willis, and a niece, Mrs. Scott Hopkins of this city.

Funeral arrangements have not yet been made.

Your credit rating is being taken now. See Herald Monday.

ANOTHER PROBE

By Associated Press. Washington, February 19.—An army investigation has been ordered into the charges made by Senator Robinson that Lieutenant Colonel Reber, head of the aviation service, has been conducting the aerial corps in an inefficient manner.

Fresh supply Mrs. Austin's Buckwheat Flour at your grocers. advt.

STEAMSHIP IS HELD UP

By Associated Press.

Shanghai, China, February 19.—The American steamship China, which left Shanghai yesterday morning for San Francisco, was held up on the high seas by a British auxiliary cruiser and 38 Germans were taken off.

CLANSMEN MUST MOVE OUTSIDE

By Associated Press.

Peking, Feb. 19.—President Yuan Shi-kai, the Emperor-elect, has issued an order that the members of the imperial clan of the Yuan family now living within the Forbidden City are to move outside of the palace grounds. This order, of course, does not apply to his immediate family.

The Yuan clan is a large one, and has been well looked after by the president. However, it would be quite in violation of all precedents for him to permit relatives other than his immediate family to live within the imperial grounds. With his accession to the throne, the emperor must draw a sharp distinction between himself and his clansmen, as now they become his subjects.

In China there has been much criticism of the influence which relatives have had on the emperors. Even now appeals are directed to Yuan Shi-kai that he shall influence the drawing up of the new constitution in such a way as to make it impossible for the women of imperial families to have undue influence upon the emperor.

AMERICA TELLS TURKISH OFFICIALS ABOUT MASSACRE

By Associated Press.

Washington, February 19.—The American Embassy at Constantinople has been authorized to call attention of the Turkish government to the massacre of Armenians. Secretary Lansing announced today.

ASKING RELIEF OF STATE BOARD

By Associated Press.

Columbus, February 19.—Nine civic and commercial organizations of the Hocking Valley and Sunday Creek coal regions today petitioned the Public Utilities Commission to reduce the 85 cent coal carrying rate which they say makes "enormous profit" for the Hocking Valley railroad.

The reduction, it was declared, would produce an increase in tonnage and bring general prosperity to the district.

HUMPHREY JONES ESTATE APPRAISAL

The appraisal of the Humphrey Jones estate, exclusive of the Indiana farm—1200 acres—filed in the probate court this afternoon, totals \$517,489.79.

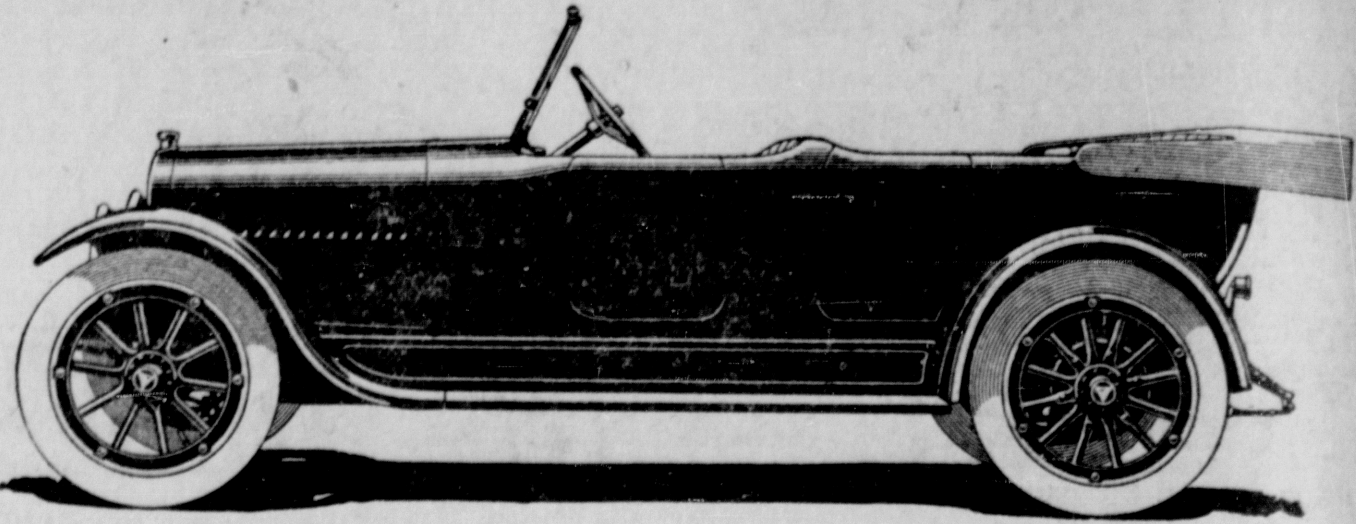

Ceylon's Rice Fields. A surprising condition in Ceylon rice is not grown in nearly sufficient quantities for home consumption. British India ships considerable quantities to Ceylon. There are vast tracts of irrigable land on the island now uncultivated which would be suitable for paddy fields, but how to bring about the utilization of this rich land remains unsolved.—Argonaut

The Term "Minister." The term minister was first applied to churches of outlying English parishes in the tenth century. It is now given to a number of the important cathedrals, York, Ripon, Lincoln and Southwell, and to a few large churches and abbeys, such as Sherborne, Winchester and Westminster.—London Globe.

A Handy Dog. Iva Line—My dog is a regular blacksmith. Ivan Other—How's that? Iva Line—Why, I kicked him the other day and he made a bolt for the door.—St. Louis Post-Dispatch.

Safety First. "Isn't it distressing to think of all the poverty in the world?" "I never do. I confine myself exclusively to thinking of my own."—Life.

Hudson Super-Six

No business man who knows the value of his own time can afford to get along without an automobile. This applies to you.

As a progressive and successful business man, you will naturally seek a high-class car. The Hudson Super-Six is such a car. It is the most recent achievement of the world's foremost automobile engineers.

The motor is the heart of any car. In developing the Super-Six, the Hudson engineers have produced a car which is superior to both eight and twelve cylinder motors. The Super-Six made 100 miles in 80 minutes, 21.4 seconds, averaging 74.67 miles per hour with driver and passenger. The Super-Six was not built for speed. But speed requires power and it also proves endurance.

Exhaustive tests of every conceivable nature have established the dependability of the Super-Six.

The distinguished appearance of the Hudson has been magnified in the Super-Six. The streamline is more pronounced and it presents a trim and snappy appearance.

The beauty and elegance of the Super-Six combined with its mechanical efficiency, makes it a car you will be proud to own.

You are invited to come in and inspect this car, which will arrive within a few days. It will place you under no obligation whatsoever.

BLOOMINGBURG IS LOSER IN GAME

The Bloomingburg High school basketball team, in a hard fought game, with the Washington High school team, at the Y. M. C. A. Friday night, was defeated by the local team, the score at the close standing 27 to 21.

The game was rough but of more than ordinary interest, and some good playing was done on both sides. A crowd of nearly 200 witnessed the sport.

Slagle for Washington and Hicks for Bloomingburg, each played star games and each made six goals.

LEVEE BREAKS---2000 LIVES IN PERIL

RUSSIANS ACTIVE BLACK SEA PORT NOW THREATENED

Turks Flee Westward in Disorder Before Advance of Czar's Armies.

Later Advices Do Not Sustain the Early Claims of Large Number of Prisoners Taken.

Activity Is Marked in Galicia—Petrograd Reports Repulse of Austrian Attacks.

London, February 19. — While no news has been received of organized resistance by the Turks in the vicinity of Erzerum since that Turkish stronghold was taken by the Russians, Petrograd advices indicate that it was thought possible the Turks would make a stand on the western edge of Erzerum Valley, eleven miles from the city.

It is not thought probable, however, that they were able to erect any powerful fortifications there.

The latest Petrograd official statement reported the Turks fleeing in disorder. Details from the Russian side indicate that there were no large captures of men when the fortress fell.

The bulk of the Turkish troops apparently were well on the retreat westward at the time the inner forts were taken, only the rear guard taking part in the last day's fighting.

Reinforcements which the Turks were sending to Erzerum are reported to have been five or six days' march distant when the city was surrendered.

Meanwhile, the Russians are active along the Black Sea coast to the north. A Sebastopol dispatch reports the bombardment of Vitzes, 15 miles east of Trebizond.

A Russian advance landward in the direction of Erzerum, already has been unofficially reported.

There appears to be somewhat greater military activity in Galicia for some days past. Petrograd reports an Austrian offensive on the Piester River, an attack being repulsed after intensive artillery preparation. The assault was repulsed, it is declared.

Indications that some important military movement by the Germans may be in preparation on the western front are furnished by advices from the Belgian frontier, received in Amsterdam.

Heavy troop movements have been reported in south and central Belgium, the dispatch says.

THE LETTERS OF CRONES AT CHICAGO

Boasts of Attempt to Cause Death of Banqueters.

Chicago, February 19. — Photographic copies of the first letter to a New York newspaper in which Jean Crones boasted of having poisoned the soup at the banquet given Archbishop Mundelein here last week, and a photograph of three men, one supposed to be Crones, were received from New York today by Captain of Detectives Hunt.

Employees in the kitchen of the University Club, where Crones was assistant chef, will be asked to identify his supposed photograph.

EXPLOSION OF LANTERN A MENACE

Bristol, Va., February 19. — Explosion of a lantern early today set fire to a chemical tank at the plant of the Federal Dyestuff & Chemical Company, near here.

Officials say only one building was damaged, although several were threatened with destruction.

First reports were that the entire plant, valued at several million dollars had been destroyed.

Grave Apprehension Felt for Safety of People Marooned Around Newellton

Mississippi Breaks Through Levee at Buck Ridge Plantation.

Crest of Flood Waters Will Not Be Reached for One Week Yet.

By Associated Press.

New Orleans, La., February 19.—Increased apprehension was felt today for the 2,000 or more persons marooned around Newellton without food and with but scant shelter.

Most of them are negro plantation laborers, unable to reach safety when the Mississippi river broke through the levee at the Buck Ridge plantation.

The crevasse is nearly 700 feet wide. The water is pouring through the crevasse 4 miles an hour.

A quarter semi-circle with a radius of 25 miles is flooded from 6 to 15 feet, while beyond this another 25 miles is covered with water from a few inches to 1 and 2 feet deep.

The flood will not reach its climax for at least a week, authorities predict.

RELEASED MEN SORE AT GERARD

By Associated Press.

London, Feb. 19. — Released prisoners from the Ruhleben camp who have returned to England are indignant over the last report of the American Ambassador at Berlin, in which he made the statement: "The British taxpayer is paying a large sum in wages because the Ruhleben prisoners are unwilling to do the fatigues work of the camp."

This charge is called unjust and ungenerous by the released prisoners, who say that Ambassador Gerard has no real knowledge of working of the camp.

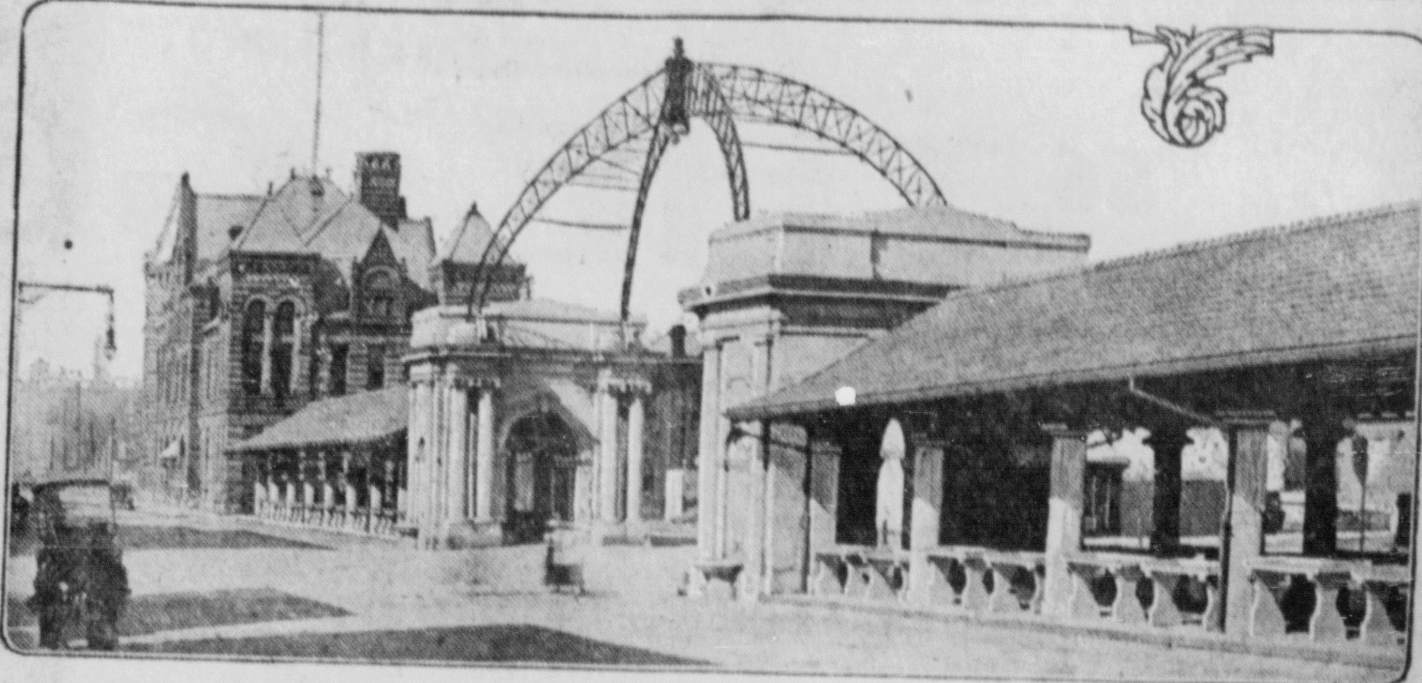

It is true that the British government pays five marks a week to each civilian prisoner in the camp. But each receipt states explicitly that the money must be repaid if asked for by the British Chancellor of the Exchequer. At one time, the released prisoners say further, this sum did help the inmate of the camp to live, but with butter at four marks a pound and other foods in keeping, five marks does not go very far. In fact, the prisoners rely almost entirely on parcels from England.

THREE MILLIONS FOR EMERGENCY

By Associated Press.

Washington, February 19. — A \$2,750,000 emergency appropriation for immediate necessary repairs of machinery in battleships, torpedo destroyers and submarines, to increase the supply of mines and to equip battleships with anti-aircraft guns, was asked of Congress today by Secretary Daniels.

MUNICIPAL MARKET HOUSE AT FORT WAYNE

Fort Wayne, Ind., has one of the most scientifically arranged city market places in the United States. The market wagons back up to the curb along the house, and purchasers have the use of the passage through it. Five foot concrete tables between the columns are used by the marketmen for display purposes.

STONE DEFENDS WILSON

By Associated Press.

Washington, February 19. — Chairman Stone of the Foreign Relations Committee today replied to criticism of President Wilson and Secretary Lansing for withholding part of the correspondence in regard to the Mexican situation asked for in Senator Fall's resolution.

Chairman Stone declared there were abundant precedents for such action, and cited the action of President Taft and Secretary Knox in withholding correspondence between the United States and Colombia with relation to the partition of Panama.

FRUITLESS ONSLAUGHT

By Associated Press.

Berlin, February 19. — Another fruitless attack by the British southeast of Ypres, where the Germans recently captured several hundred yards of trenches, was announced today by the War Office.

RECEIPTS BOOMING

By Associated Press.

Columbus, February 19. — Receipts of the Secretary of State's department for 1915 were \$1,547,228, an increase of \$554,537 over the record of 1914, according to a report made public today by Secretary of State Hildebrandt.

The receipts came largely from incorporation fees and automobile licenses. The pay roll for 1915 was \$79,751, a saving of \$3,521 over 1914.

The report stated that during the administration of Mr. Hildebrandt a new office system was installed in the Bureau of Vital Statistics, resulting in a saving of \$30,000 in expenses and bringing up to date reports on vital statistics, which one year ago had not been completed for 1912.

KAMERUN CONQUERED

(By Associated Press)

The complete conquest of Kamerun, the German colony in equatorial Africa, was announced officially today.

ANOTHER DEFEAT FOR THE BRITISH

By Associated Press.

Constantinople, February 19. — An attempt by British forces in Mesopotamia to cross the Tigris River below Kut-El-Amara was repulsed after a battle of three hours, the War Office announced today.

The British, in their retreat, were pursued to their second line of entrenchments.

CARRANZA WILL FOLLOW THE U. S. PLAN

By Associated Press.

Washington, February 19. — The Carranza army, estimated at 100,000 men, is to be reduced gradually and supplemented by a national guard similar to the national guard of the United States.

The Mexican Embassy announced that the plan is to be put into execution as soon as details can be worked out.

HOLD 2 MEN FOR KILLING

By Associated Press.

Chicago, February 19. — Two farm laborers, both foreigners, arrested here today for the murder of a fellow workman near Benton Harbor, Michigan, had such elaborate plans for the crime that they had even dug their victim's grave, according to a confession which police say they have obtained.

A wife of one of the prisoners is said to have made the confession. Robbery is given as the motive for the crime, and the men are alleged to have obtained \$55 from their victim.

EVIDENCE OF GUILT INCREASES

Coroner Receives Report of Chemists Showing Poison Was Administered By Accused.

By Associated Press.

Chicago, February 19. — A report made to the coroner today by chemists shows that the poison which caused the death of Miss Marian Frances Lambert, Lake Forest high school girl, was the same as the poison, crystals of which were found under the finger nails of the dead girl.

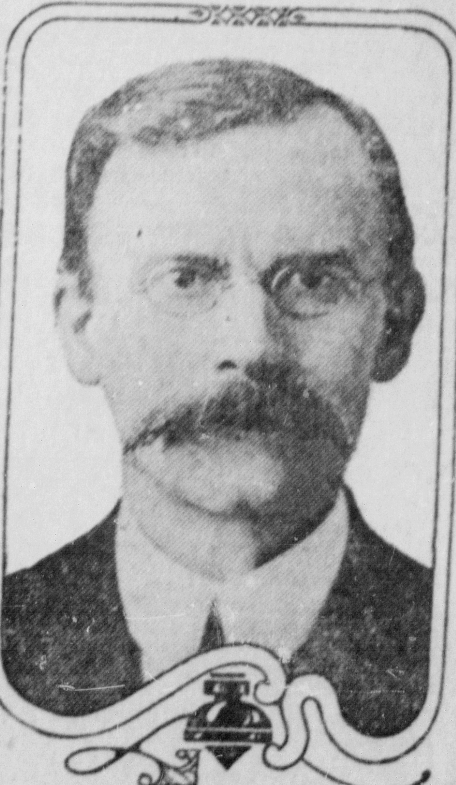

The report is to be read Monday at the inquest into the cause of the girl's death.

An analysis is being made of poison crystals found in an ash pile at the home of Will H. Orpet, who is charged with the murder of Miss Lambert.

The State contends that Orpet, who was a former admirer of the girl, made a secret appointment with her in the woods where body was found, and did not leave her until after she was dead.

ANNOUNCEMENT -- EMPIRE THEATRE!

STARTING MONDAY, FEB. 21,

and running three days each week, Mondays, Wednesdays
and Fridays, we present the serial beautiful

"THE GODDESS,"

in fifteen chapters of two reels each, starring two of the most
popular Screen Artists

Anita Stewart and Earle Williams

This serial is not of the sensational type and each episode is a complete story in itself. "The Goddess" is from the pen of the well known Gouveneur Morris, and directed by Dean of Directors, Ralph W. Iace, at the Vitagraph Studios. It has always been the habit to show one episode of a serial each week, but having decided that the length of time between each chapter was too long, therefore losing the patron's interest in same, we have arranged to show three episodes each week. In connection with same we will show two other reels of high class film. In order that all may have a chance to see this serial we have printed a number of season tickets good for one admission to each episode, to be sold for 75c each, at The Empire TONIGHT and MONDAY only, making a saving of 75c on the entire serial, as the regular admission price is 10c. These tickets are transferable.

"The Goddess" is Put On for Benefit of The Pythian Sisters Lodge of This City

There Will Be Three Shows Each Night at 7:00, 8:00 and 9:00

DON'T FORGET THE STARTING DAY -- MONDAY, FEBRUARY 21

CHARGE IT UP TO WEATHER

(By American Press)

Philadelphia, Feb. 19.—Climate governs and determines the successful assimilation and progress of our foster children, and Americanization that leaves out this vital and controlling factor in our national melting pot is without avail, according to a paper read by Dr. Austin O'Malley in Houston hall. The distinguished scientist also declared that no white man could succeed below South Carolina, and that parallels of latitude were the natural lines of demarcation between success and failure for the races that come to the United States to be adopted as citizens. Dr. O'Malley was specific in his application of climate to the individual and said that mental activity was best at a temperature of 30 degrees above zero.

BUSY BEES

(By American Press)

Detroit, Mich., Feb. 19.—A mysterious series of war letters, bearing English governmental seals, a strange woman, inventions of death dealing devices for war use, and a midnight visit of armed men to the Detroit plant of the American Car and Foundry company, are new factors that appeared in investigation of a plot to blow up the Detroit branch. Pinkerton operatives say they have an affidavit that Otto Bartholma, now under arrest, had purchased dynamite recently. The arrest of four other men is expected soon. The woman is said to be a friend of Bartholma and that the two held frequent secret meetings. Among Bartholma's effects was a letter to a foreign consul asking if he could do anything more "for his country."

POISON PEN WAR

(By American Press)

Chicago, Feb. 19.—"A poison pen" war has been revealed by the filing of a suit for \$10,000 by Mrs. Rose L. Carpenter, the fifth wife of Dr. Henry Carpenter of Glen Ellyn, a West Side suburb, against Mrs. Clara Otto, the fourth wife of the physician until the marriage was annulled. The suit is based on remarks said to have been made in a "matrimonial melee," during which it is charged the physician struck Mrs. Otto. He was arrested. A letter and two postcards figure in the case.

The Narrow Margin

What a frail thread, after all, the business, manufacturing and social affairs of the communities throughout the land hang upon?

We go along day by day depending upon the inanimate machine to do its duty and so much confidence do we place in the integrity of the machine that scarcely a thought is given to what would happen if the machine should go wrong.

We guard against human frailty and human omissions, but we expect the machine to go along day after day, week after week, ad infinitum with never a fear of break down until it comes.

These machines, which organized society depend upon, are strong, tireless and honest, but once in a while even they fail. It is then that we realize just how much of faith and service these big monsters of iron and steel have rendered to us and just how much we have grown to depend upon them and just how narrow the margin has been, during all the period of our feeling of security that comes from accepting things as a matter of course.

Last Thursday evening a little bit of a valve bursted at the electric company's plant. It happened to be the valve on the pipe which conveyed the water to the boilers. The valve wasn't larger than a good sized goose egg, but when it bursted the whole plant was out of commission, the city was in darkness, printing presses stopped, elevators halted, moving picture machines stalled, stores in gloom, residences in darkness and so on all through the long list.

A city of over ten thousand going placidly along about its business and pleasure depending upon the faithfulness of one little valve to be true to its trust. It was true until the metal gave way.

True the "accident" could not have been guarded against and the long trusted valve was soon replaced by a new one.

But the point of the whole occurrence is: How much we expect of the inanimate creations of our own brain and brawn and how absolutely dependant we become on the unthinking machinery.

The Cherry Hill School

Cherry Hill School is to be commended for its progressive spirit and energy in carrying out to successful completion modern innovations.

The Parents' and Teachers' club was first organized in this city under its auspices and the movement, which is one tending to draw into close personal relations, beneficial to both parents and children, is now well under way in all the schools.

Aided by exceptional surroundings, Cherry Hill has been able to put on entertainments of a distinctive character, working up splendidly by the school management, at much labor and time outside of school hours, and is constantly attempting the forward march in whatever pertains to school activity.

For the first time, locally, a school minstrel is being put on by Cherry Hill.

The spirit of originality and ambition always deserves to be encouraged and especially when it is aroused in the interests of the public schools and the children.

Coming to It

Nothing has exerted a stronger influence to direct people's attention to the utter unfitness of present methods to present conditions, the cost and the waste of it all, than the present financial plight of the many cities of the state.

Almost every day there is some sort of a meeting of officials and public spirited citizens representing the cities of the state, bemoaning present conditions and seeking some method of relief.

It makes little difference by what name the suggested plan is called, the aims and the ideas, in every instance, are the same—to get away from politics and run the finances of the city on a business basis.

That total lack of the application of business methods to municipal affairs which has been the rule and not the exception in Ohio, especially marked since the splendid tax rate limit law became operative, would wreck any private business.

Just why business men—practical men of affairs—who could not tolerate such laxness of methods in their own private affairs, will allow them to exist in public affairs is one of the unsolved mysteries.

At the conference held in connection with the meeting of the Committee on Tax reform of the Municipal League in Columbus Friday the plan of "syndicating" the cities of the state so as to purchase to better advantage, was suggested.

That's a step in the right direction. It would, if adopted, solve one problem but only one.

The people in the cities of Ohio are going to get away from waste and graft and politics in their municipal affairs and get on a business basis.

They will be compelled to do so. We have reached the point where legislation will not help us. We must begin at home and practice economy which will bring more of every thing save waste.

Poetry For Today

THE TRUCE.

One made this prayer: "Sweet Father Christ, I crave
Some little lazy peace to follow death,
A sunny bank where tranquil willows wave
Wind-silvered leaves, and time to draw my breath,
Beside a stream knee-deep in arrow-head
And dear forget-me-not; a gentle spot
Where I may thank my God that I am dead
And all the traffic of the world forgot.

"There, dreamless, I shall lie so still—
—so still.
The cautious moor-hen piloting her brood
Will heed me not, the heron stir no quill
For fear of me in that kind solitude,
O grant this truce from pain, this moment's rest,
Before I brace my soul to further test."
—W. M. Letts in the Westminster Gazette.

Weather Report

Washington, February 19.—Ohio, Tennessee, Kentucky and Indiana: Fair Saturday; Sunday fair and warmer.

Michigan — Probably fair Saturday and Sunday; rising temperature. West Virginia — Fair and somewhat colder Saturday; Sunday fair. Illinois — Fair Saturday and Sunday, rising temperature.

FORECASTING THE ANSWER FROM BERLIN

German Pledge Not to Apply to Armed Merchantmen.

Washington, Feb. 19.—Count Von Bernstorff, it was learned, has already outlined to the Berlin government what he believes the German reply to the United States should be. He has suggested that the Berlin foreign office instruct him to call to Mr. Lansing's attention the fact that in the first formal note of the United States demanding satisfaction in the Lusitania case, the note of May 15, which Secretary Lansing has heretofore referred to as embracing the full demands of the United States, only unarmed vessels were referred to, not only in describing the character of the Lusitania, but also with respect to the assurances which the United States was demanding as to the future conduct of German submarine warfare. Therefore, the ambassador would have his government observe, that it is a matter of considerable surprise to Germany that at this late date the United States should suddenly extend the scope of its demands to cover guarantees for armed merchant vessels.

If the ambassador's suggestions are followed the memorandum from Berlin will go on to inquire of the United States how it proposes to draw the line of distinction between ships armed for offense and those armed merely for defense. Germany, the memorandum will say, finds it impossible to base such a distinction on the mere character of the armament, especially since Germany, from an examination of drafts which it has obtained from the secret orders of the British admiralty to their merchantmen, is convinced that, regardless of the character of armament they carry, all merchant ships have been instructed to fire on submarines at sight.

There is every indication that the developments of the last few days will make the situation more tense in Germany. This, it is contended, is certain to be the case if the German people would justly or unjustly get the impression that the United States has changed front after having obtained Germany's concessions on the Lusitania case.

ANOTHER CLUE

(By American Press)

Chicago, Feb. 19.—A bottle found in the mud at the Sacred Heart crossing of the Chicago and Northwestern railroad, a few hundred feet from the three oak trees where the body of the Lake Forest school girl, Marian Lambert, was found a week ago, is now in the possession of State's Attorney Dady of Lake county. The vial is supposed to have been the container of the poison that killed the girl.

Ever since it was learned that Will Orpet, the University of Wisconsin sophomore, purchased a two ounce vial from C. F. Hassinger, a druggist of Madison, Wis., there has been a close search for the bottle. It was regarded as the necessary link in the chain of circumstances that has bound Orpet to the crime. The bottle was found by Sheriff Elmer Griffin of Lake county.

PINK PAJAMA WIDOW GETS SUBSTANTIAL SUM

(By American Press)

Canton, O., Feb. 19.—The jury in the \$50,000 breach of promise suit brought by Mrs. Ella Canine against R. R. Jacobs of Pittsburgh awarded Mrs. Canine a verdict of \$10,500. The jury was instructed not to consider whether or not a common law marriage had been entered into when considering the verdict.

ADMITS TO MURDER

(By American Press)

Montreal, Feb. 19.—Isabel Dominican, the Martinique negress, has admitted murdering her mistress, Mrs. Kate Matthews, in her home here a week ago. She said: "I was asleep in bed when she came in and struck me. She made me get up, then she hit me again. I grabbed her by the throat—that is all."

GETTING A MOVE ON

(By American Press)

Chicago, Feb. 19.—An increase of 22,943 new families in Chicago, 19,982 new buildings and 373 new business concerns during the past year was reported in the annual statement of the city delivery division of the Chicago postoffice, submitted to Postmaster Daniel Campbell.

OHIO NEWS

Burns Prove Fatal.

Cincinnati, Feb. 19.—Mrs. Louise F. Jelke, eighty-five, mother of Judge Ferdinand Jelke, Jr., died of burns received when her clothing took fire from an open fireplace.

Drys Defeated.

Bellevue, O., Feb. 19.—Bellevue voted to remain wet at a special election, the majority being 91. The vote was the heaviest ever cast in Bellevue on any proposition. The vote: Wet, 775; dry, 684.

Stepped On Rusty Nail.

Toledo, Feb. 19.—Blood poisoning, the result of having stepped on a rusty nail ten years ago, caused the death of Anthony Leon, seventy-two. He was for thirty years a stellar figure in the circus world.

What Hildebrand Says.

Columbus, Feb. 19.—Secretary of State Hildebrand said he is a candidate for renomination and not a candidate for governor. "If petitions are being circulated in my behalf, it is without my knowledge and consent," he said.

Wealthy Widow Refuses to Eat.

Portsmouth, O., Feb. 19.—Mrs. Clara F. Foster, wealthy widow, jailed for refusal to pay \$100 fine for violation of sanitary regulations, began a hunger strike in her cell here. She says she is a martyr and is being persecuted.

Succeeds James Fleming.

Columbus, Feb. 19.—W. H. Kinnan of Cleveland was elected State fair manager and assistant secretary by the state board of agriculture. He succeeds James Fleming. The job pays \$2,600. Kinnan was secretary of the Forest City Live Stock and Fair company of Cleveland.

South Gains Freedom.

Cleveland, Feb. 19.—Arthur McKenzie, twenty, who interfered in a quarrel between his parents which resulted in his father's death, was discharged by Municipal Judge Silbert. The court absolved the boy from all blame for his father's death. Mrs. Mary McKenzie, the mother, stated that her husband was pushed by her son and fell to the floor, breaking his neck.

Will Appeal to Legislature.

Columbus, Feb. 19.—Although they came here with intention to formulate, for submission next fall, a constitutional amendment to kill, in effect, the Smith 1 per cent law in order to give cities increased revenues, members of the Ohio Municipal league changed their view of the situation and voted to content themselves with asking the next legislature merely for remedial measures.

TRUCK UPSETS

(By American Press)

Kenton, O., Feb. 19.—Forest Hedger, twenty-four, was killed, and Will Daunerheim injured, when an automobile truck on which they were riding ran off the road and upset.

WOMAN INJURED IN B. & O. WRECK MAY BRING SUIT

Attorney Chas. D. Heald, of the firm of Burkhardt, Heald & Pickrel, of Dayton, was in this city Friday gathering information with a view to bringing action against the B. & O. railroad or the C. H. & D. railroad for a client in Pittsburgh, who is said to have suffered permanent injuries when a C. H. & D. freight struck the early morning west-bound B. & O. passenger train at the crossing in this city.

The client is Mrs. Lydia Robb, who, with her husband, Clifford Robb, were in the sleeping car when it was struck by the C. H. & D. and hurled down the embankment.

Mrs. Robb, it is claimed, had undergone an operation sometime previous but, acting upon the advice of her physician, who is said to have pronounced her sufficiently recovered to make a trip from her home in Pittsburgh to some point west of this city, was on her way to the home of her friends when the wreck occurred.

Mrs. Robb, it seems, claims that when the train was struck and the coach in which she was riding was carried down an embankment, that she suffered injuries which have since become of a permanent nature, and that her health has been forever impaired as a result.

Mr. Heald went over the scene of the wreck, questioned various persons who had seen the wreck, obtained photographs of the catastrophe and copy of the Herald containing a write-up of the wreck.

Hear our Challenge Sextett, Feb. 21, 7:30, High school auditorium.

EVANS LANDS BIG ORDER FOR VENEER

The Evans Veneering plant of this city, which had not been in operation for sometime, is now running at full capacity and the owner, Mr. Samuel Evans, expects to install an additional mill thus doubling the capacity of the plant in the near future.

Mr. Evans recently booked a mammoth order for oak veneer and is now engaged in filling the order, one car load having been shipped out this week and another carload will follow within a few days.

It was rumored that the order booked reached well up toward \$50,000, but this is not confirmed by Mr. Evans, who simply stated that the order was a large one.

The plant in this city turns out the raw material which is then shipped to the user. The plant was installed in this city some two years ago, and is located on Sycamore street, opposite the Coffman Planing Mill.

AFFICTED MAN HARD TO HANDLE

Charles Knipe, who was ordered committed to the O. H. E. at Gallipolis, was landed in that institution Friday, after giving three men who had him in charge, a series of tussles which they will not soon forget.

At the early morning B. & O. train he became very violent, and Deputy Sheriff Edward Jones, Deputy Roberts and Officer Baughn had their hands full until the man was securely strapped. On the B. & O. train he smashed a window, but after being placed on the Hocking Valley train he quieted down somewhat, although requiring constant attention, and at the O. H. E. he was immediately placed in a padded cell.

\$177,497 COST OF CLINTON COURTHOUSE

Clinton county's new court house will cost \$177,497, according to the bids submitted, the Western Building Company, of Buffalo, N. Y., making the lowest bid as above given.

The lowest bid for the jail was made by the Georgeson Brothers of Hamilton, and was for \$21,409. Mechanical equipment will cost \$21,096 and wiring will cost \$2758, making a grand total of \$222,751 for the entire work.

PLANS COMPLETED FOR ACTIVE WORK

The executive session of the county W. C. T. U., held at Welfare rooms Friday, opened at 10 a. m., Mrs. Alice Taggart, county president, presiding, and with the following county officers present:

Mrs. Alice Taggart, county president; Mrs. Carrie Willis, treasurer; Mrs. Laura Pine, corresponding secretary; Mrs. Pearl Darlington, president Sugar Grove Union; Mrs. Alice Roberts, president Staunton Union; Mrs. Mary Stafford, president Washington C. H. Union; Mrs. Cora Foster, president Bloomingburg Union; Mrs. Hallie King, president Cook Union; Mrs. Alice Adams, superintendent of evangelistic and peace department; Mrs. Mada Hughey, superintendent of Medical temperance; Mrs. Augusta Haines, superintendent of flower mission work; Mrs. John VanGundy, superintendent of Fair work.

Mrs. Frank Christopher and Mrs. A. E. Baum, guests.

The meeting was in the nature of a mid-year session for general discussion of plans for future work. The plan of the work of the Ohio W. C. T. U. was read and parts of it adopted for the county unions.

It was decided to bring a state worker, probably Mrs. Augusta Steiner, of Lima, sometime in May, to hold an institute at Sugar Grove in connection with the Good Hope, Staunton and New Martinsburg unions—the four unions to defray expenses jointly. She would also visit Cisco schools in Wayne township and give talks to the children on "Purity." It was urged that members from all different unions visit the various schools throughout the county and make short addresses to the pupils and distribute literature among them.

The meeting decided to hold a County Convention in this city early in September, whether or not an outside speaker be brought for that event to be arranged later.

It was ascertained that \$10 had been sent from the different unions of the county to aid in the expenses of the temperance campaign last fall.

The meeting was in progress from 10 a. m. until 3 p. m. with a half hour recess at noon for lunch at the Hughey Confectionery.

A beautiful poem, "Frances E. Willard," was read by Mrs. Taggart.

Your credit rating is being taken now. See Herald Monday.

"CHAIN GANG" NOT ANXIOUS FOR WORK

A part of the city's "chain gang," or those convicted of crime and who agreed to work out their fines under the Service-Safety Director, has been very negligent in carrying out the agreement entered into with Mayor Oster, and as a result the mayor is seriously considering sending the shirkers to the workhouse where they will have no such opportunity to quit work when they please.

During the past week only one of the four or five fellows has been on the job all of the time, one or two of the others sending in reports that they were ill, one making complaint that his shoes were no good and the other neglecting to inform his employer why he failed to put in an appearance and cut down the \$200 which stands between him and liberty.

That silver voiced tenor, Mose Ellis, in latest song hits. Cherry Hill Minstrels.

CLAM SHELL DREDGE HAS BEEN PURCHASED

Messrs. E. A. Ellis and H. C. Hosier have purchased a modern clam-shell dredge, which will be used in removing the sand and gravel from the McLean land bounded by the C. H. & D., the Pennsylvania and Elm street.

The deal for the monster dredge was closed Friday, and it will be shipped to this city early in March, erected at once and placed in operation as quickly as possible.

The total weight of the dredge is 36,000 pounds, and the huge "clam-shell" scoop weighs 2950. It will be electrically driven and capable of removing sand and gravel 30 feet underneath the surface of the water. It has a capacity of 500 yards of material each day.

JUDGMENT TAKEN

The Fayette County Bank, represented by Post & Reid, has taken judgment in common pleas court against Paul Johnson and others, in the sum of \$478.25 on a promissory note.

City Churches

Service Sunday morning at 11:00 o'clock.
The Ladies' Guild will meet Monday afternoon at 2 o'clock at Mrs. W. A. Tharp's.

Christian Science.

Sunday school at 9:30 a. m.
The Christian Science services will be held on the 2nd floor of Masonic Temple, Sunday morning at 10:45, and Wednesday evening at 7:30.
Invitation to the public kindly extended.

The Washington Herald

Has Been Selected as One of

"Newspaperdom's Winning Dailies"

(The Only Washington Newspaper So Honored)

We feel sure that Washington advertisers will be interested in knowing that the "Herald" has been selected as one of Newspaperdom's "Winning Dailies"—and that the selection was made after studying the features which we believe entitled it to this distinction. Newspaperdom in its issue of February 10th said:

"The only newspaper in the Washington section of Ohio to be granted Newspaperdom's 'Winning Daily' emblem was the 'Herald.' Newspaperdom found that the 'Herald' is supreme in local and foreign advertising; that its circulation is much larger than that of any other daily in its field; that it is the only newspaper given a definite circulation rating by the 'A. N. A.' that it is a substantial newspaper, furnishing the people a complete news service; that local advertisers endorse it unanimously as a result-producer; that it gets a higher rate for its space; that it carries a large volume of foreign advertising, and that its advertising pages make up the 'meeting place' of advertiser and reader."

Newspaperdom congratulates the management of the "Washington Herald" upon the fact that the "Herald" is justly entitled to the honor we have given it—of being one of Newspaperdom's "Winning Dailies." Less than 200 newspapers in the United States have been given this classification, according to the acid test applied before making our final decision.

W. W. WILSON
The Home of a Complete Line For Farmers

In Social Circles

In compliment to the birthday of her husband, Mrs. Frank S. Jackson gave a very handsome six o'clock dinner Friday night.

The table, laid with twelve covers, was lovely, introducing a yellow and white color scheme. Yellow carnations and white narcissi bloomed in a Japanese water garden, resting on a table mirror garlanded with smiles.

The place cards were Japanese hand painted affairs and at each plate were tiny gold favor baskets. White and yellow tints prevailed in the elaborate courses.

Seated with Mr. and Mrs. Jackson were Mr. and Mrs. L. L. Bowman, Mr. and Mrs. W. M. Mitchener, Mr. and Mrs. R. R. Kibler, Mr. and Mrs. Arthur Leland, Mr. and Mrs. Brooks Hughey.

Chrystola music contributed to the pleasure of the after dinner hour.

Mr. and Mrs. Ed Pine celebrated their silver wedding anniversary in most delightful fashion Friday evening, the social features of the occasion instigated without their knowledge by their two daughters, Misses Pauline and Lucy Edna Pine. Mr. and Mrs. Pine had been invited to a family dinner at the Pine homestead. Returning they found a congenial group of friends awaiting them with cordial congratulations, beautiful flowers and gifts.

A delicious buffet luncheon was served, in which was prettily employed a pink and green color scheme.

Miss Anne Lawrence assisted the Misses Pine in entertaining.

The guests were Mr. and Mrs. Will Hay, Mr. and Mrs. Al. Thornton, Blackmer, Mr. and Mrs. George Chaney, Mrs. Minnie Brown, Dr. Lucy Pine, Misses Ethel Pine, Josephine Gossard, Ida Reichert.

Mr. and Mrs. Alex H. Ballard are entertaining the Saturday evening Bridge club tonight.

Miss Dora Hays charmingly entertained two tables of Bridge Saturday afternoon in honor of her very attractive niece, Miss Maude Welshimer, of Columbus.

A dainty repast followed a merry game, in which were at play with the honor guest, Mrs. H. E. Daugherty, Misses Janet Stutson, Emily Tanzey, Mary Craig, Jean Howat, Regina McDonald and Dorothy Smith.

Frank Thornton is down from Columbus spending Sunday.

Mrs. Henry Brownell is spending Sunday with her sister, Mrs. James Brandt, at Ashland, O.

Mr. John McDonald returned Saturday morning from a business trip to Urbana.

Miss Minnie Moses, of Kenton, O., is spending the week end with her sister, Mrs. W. E. Summers.

Mr. Ernest Knable returned to his home in Marengo, Friday, after a visit with his sister, Mrs. Jesse Blackmer.

Mrs. Morris Baker left Saturday for a visit at her home in Delaware, called by the illness of her mother, Mrs. McCartney.

Mr. and Mrs. Clarence Craig are spending Sunday in Greenfield for the birthday anniversary of Mrs. Craig's mother, Mrs. Henry Deafner.

Mrs. George Haynes will have as her guests the coming week, Mrs. Tabitha Hunsicker of Williamsport, and Miss Frances Campbell of Bainbridge. They arrive Monday.

Mr. Harry Rawlinson leaves Sunday for Columbus to enter the train service of the Pennsylvania railroad. Mrs. Rawlinson breaks up house-keeping and joins him Tuesday. Their removal is sincerely regretted by many Washington friends.

Washington friends will be interested to learn of the birth of a son to Dr. and Mrs. E. C. Link (nee Nelle Cullen) at their home, 150 Byers Ave., Akron, O., on February the sixteenth.

Mr. Ervin Allison, of Tulsa, Okla., who has been visiting Messrs. Geo. and Ed Darlington and Mrs. W. C. Briggs and family for several days, left Friday afternoon for Columbus where he will be the guest of relatives before returning to his home.

Mrs. Howard Holland, east of town, is visiting her parents, Mr. and Mrs. Wallace Caldwell, in Jackson. Mr. Caldwell was removed to his home, following an operation at the Grant Hospital, Columbus, several weeks ago, Friday. He is recovering nicely.

Miss Mary McFadden returned to her home in Wilmington, Saturday, after a five weeks' visit with her sister, Mrs. Martha Gallup, and niece, Mrs. E. N. Holloway. Mrs. Gallup accompanied her to attend the funeral of Mr. D. M. Rudduck, on Monday. Mrs. Holloway goes to Wilmington for the funeral. Mr. Rudduck is her uncle.

Mrs. Arvilla Rowe Baxter and party of fifteen, left Cincinnati this week on an extensive southern tour. The party stops at Asheville, N. C., Jacksonville, and east coast resorts in Florida, enroute to Havana, Cuba. Returning by way of Tampa and St. Petersburg, the party cruises the Gulf of Mexico to Mobile, Ala., and reaches New Orleans in time for the Mardi Gras.

NEARLY SCORE MORE CONVERTS ARE ADDED
The results this week at the Sunnyside tabernacle have reached the average per week for the five preceding weeks and this 6th week will not be ended until tonight.

At Friday night's meeting 18 went forward and as many raised their hands for prayers. This makes a total of 610 for the entire campaign.

At the song service Friday Mrs. Girard and Miss Lena Householder sang a pretty duet, "If You Love Your Mother, Meet Her in the Skies." Evangelist Willhite took for his text, "Almost Thou Persuadest Me to be a Christian."

Sunday's program will be a good one and record breaking crowds are anticipated. At two p. m. Evangelist Willhite will preach his sermon on "Booze," to which all over 15 years of age are invited. Prof. J. W. Troy will sing a solo "Down in the Licensed Saloon," and Prof. Troy and Miss Anna Keer will sing a duet. The choir will sing "Saved."

Sunday night at 7 o'clock song service. There will be meeting Saturday night and each evening next week.

STATE SETTLES WITH THE COUNTY

County Auditor Pine is in receipt of a certificate from the State Auditor's office in which the county is given credit for \$6,126 for the common schools of the county and \$752.44 from the Virginia Military School Fund, making a total of \$6,878.44.

The \$6,878.44 is deducted from the state's portion of the December collection of taxes, which is \$8,946.74, leaving a difference of \$2,068.30 for the county to pay to the state.

Your credit rating is being taken now. See Herald Monday.

YOUR WIFE NEEDS THE ASSURANCE OF INSURANCE

Few women are capable of battling with the commercial world—of earning a living.

JOS. I. TACCART, "The Life Insurance Man"

FEDERAL BL'DG PROSPECTS GOOD

Washington, Feb. 19. — In a communication to the house of representatives yesterday, Secretary McAdoo asks liberal recognition for Ohio in framing the sundry civil appropriation bill. He suggests the following appropriations for work on public buildings be included in the sundry civil measure: Cincinnati, \$19,000; Cleveland, \$5000; Coshocton, \$5000; Elyria, \$35,000; Akron, \$5000; Ashland, \$40,000; Logan, \$20,000; Middletown, \$40,000; Sidney, \$25,000; Springfield, \$2500; Van Wert, \$25,000; Washington C. H., \$5000; Wilmington, \$500.

This means business—real business—in connection with the federal building in this city. It means that actual work will begin very soon now on the big building to be erected at the corner of Market and Hinde streets.

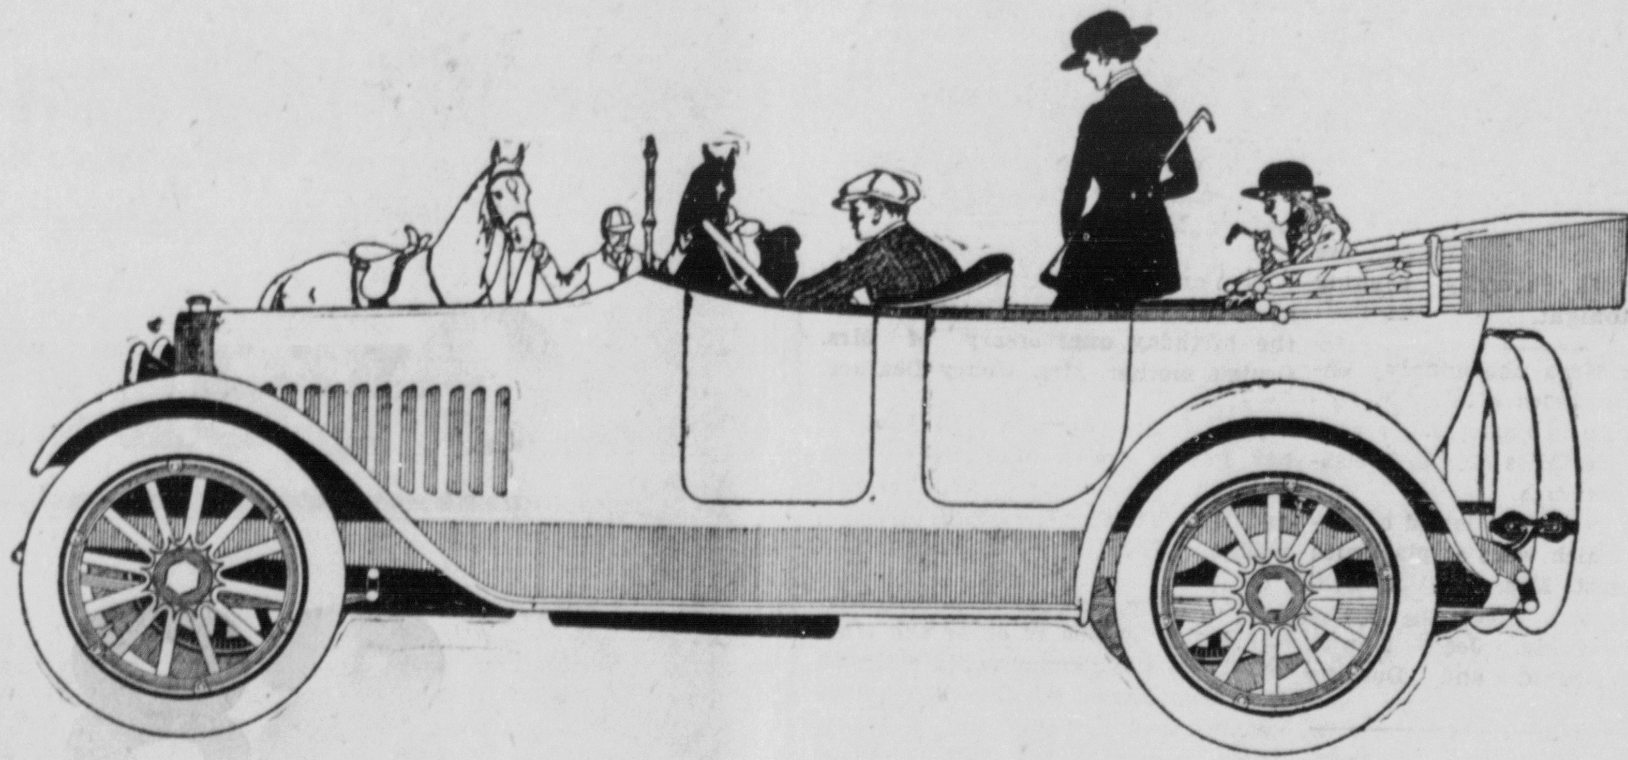

Of course we know that the whole appropriation for building purposes is much larger but the government does not make the whole sum available at one time.

HOLD CIVIL SERVICE EXAM. MONDAY NIGHT

Monday night at seven o'clock at the Mayor's Office, the Civil Service Commission of the City will hold an examination for prospective firemen, and applicants must obtain application blanks from Secretary W. A. Tharp prior to the examination, fill out same and file with the commission.

The examination is for firemen—a truck driver and chief of the fire department.

From the list of eligibles obtained through the examination appointments will be made to fill vacancies caused by the resignation of one fireman and the suspension of the chief.

(Inexpensive to Run and Easy to Drive—the New 3400 r. p. m. Chalmers

The mist of gasoline that whirls through the tiny perforation in the carburetor jet of the 3400 r. p. m. Chalmers, rushes into action that has changed the whole aspect of automobile engineering.

The conditions surrounding the manner in which its dormant energy is awakened, brought to life, and compelled to perform, explain the strange ability of this new car.

The six cylinders of its engine are small— $3\frac{1}{4}$ by $4\frac{1}{2}$ inches. The small area from which heat can be thrown away by radiation, reinforced by the incredibly short cooling process between the swift succession of its explosions, create maximum energy with minimum waste.

"Make her perform," said Hugh Chalmers to his engineers. "Get acceleration, long mileage on gas, activity."

The result—18 miles for every gallon of gas, anything up to 60 miles an hour, and supremacy of pick-up.

3400 revolutions per minute means that every gram of energy is wrung from every drop of gasoline that is

inhaled by the powerful suction of the motor pistons.

It means that when, at the point of highest pressure, a spark from the distributor ignites the oxygen of the air with the carbon of the gasoline, every mechanical condition is such that loss of energy is cut down to the lowest possible degree.

It means that the 3400 r. p. m. Chalmers gets twice the mileage on gas that many another high-speed engine will deliver.

The speed of its uncanny carburetion makes flight satin-smooth by bringing the explosions of gas so close together that you are unconscious of anything but an uninterrupted stream of might.

Unlike cars of superfluous might, the 3400 r. p. m. Chalmers has a pick-up so flexible that it's the first to make its get-away at the crossings, and the last to take another car's exhaust.

It's a cheap car to run and an easy car to drive.

Price, \$1050 Detroit

SENATOR URGES INVESTIGATION

Declares Aviation Service Is "Contemptibly Inefficient."

MAKES OTHER CHARGES

Robinson of Arkansas Appears Before Senate Military Committee and Alleges That the Head of the Aviation Service Is Preventing Facts From Reaching His Superiors—Outline of the Testimony.

Washington, Feb. 19.—Before the senate military committee Senator Robinson of Arkansas made sensational charges against the army avia-

tion service, and coupled the charges to a demand for immediate inquiry by congress. He declared that the service was "contemptibly inefficient" and that its head, Lieutenant Colonel Samuel Reber, not only was making no effort to improve it, but deliberately was preventing the facts from reaching his superiors.

Senator Robinson also presented the committee with a mass of data, including photographic copies of letters which, he said, had been exchanged between Colonel Reber and Captain Artur S. Cowan, commanding the aviation station at San Diego. At least part of this evidence was produced before the courtmartial at San Francisco, which recently tried Lieutenant Colonel Lewis E. Goodier, judge advocate general of the western department, accused of improperly altering certain charges filed by other officers against Captain Cowan.

The finding of this court now are in the hands of a special commission of army officers appointed by the acting secretary of war to make a report to President Wilson.

Senator Robinson read liberal excerpts from his photographs of letters and quoted Captain Cowan as writing to Colonel Reber that if the service ever came under investigation by anyone outside the signal corps it would be impossible to explain the "rotten way in which the work has been handled." Other letters were produced to show that favoritism was practiced in the promotion of men in the service.

HAVOC WROUGHT

(By American Press)

Syracuse, N. Y., Feb. 19.—Five persons were killed, at least a dozen others injured, some seriously, and heavy property damages was caused by an explosion in the Split Rock plant of the Semet-Solvay company. The plant, which has developed since the outbreak of the European war, is one of the largest in the country engaged in the manufacture of puric acid, which is used in explosives and synthetic dyes. The cause of the explosion has not been ascertained.

NICE ROW IS STAGED

Riotous Scenes In Oklahoma House of Representatives.

Oklahoma City, Okla., Feb. 19.—Representative Morris E. Bryant, Democrat, from Big Heart, knocked down Arthur Geissler, Republican state chairman, following riotous scenes in the house of representatives.

While the registration clause of the proposed election law was up for final passage in the house, Paul Nesbitt, Democrat, from McAlester, and Representative Sams, Republican, became involved in a row. Practically all the Republican and Democratic members of the house took part and hurled books. When the supply of books was exhausted the members resumed their seats. The section

passed, 53 to 34.

Representative Hensley went to the "side line" beneath the gallery and talked to Chairman Geissler, who had been admitted as a visitor. Bryant walked up to Geissler and said: "What right have you to be talking to a member of the house here on the floor?"

Geissler replied, "Beg pardon; what is your name?"

Bryant then knocked Geissler down and became lost in the crowd that gathered. Geissler regained consciousness in a few minutes and went up in the gallery. No further demonstration occurred.

PROMINENT MUSICIAN

Warren, O., Feb. 19.—Professor William H. Dana, head of Dana's Musical Institute and a musician of wide reputation, died here after a lingering illness.

JAPS ARE BUSY

(By American Press)

THE GIRL AND THE GAME

A STORY OF MOUNTAIN RAILROAD LIFE
By FRANK H. SPEARMAN
AUTHOR OF "WHISPERING SMITH," "THE MOUNTAIN DIVIDE," "STRATEGY OF GREAT RAILROADS," ETC.

NOVELIZED FROM THE MOVING PICTURE PLAY OF THE SAME NAME. PRODUCED BY THE SIGNAL FILM CORPORATION.

COPYRIGHT 1915 BY FRANK H. SPEARMAN

(Continued from Yesterday's Herald)

SYNOPSIS.

Little Helen Holmes, daughter of General Holmes, railroad man, is rescued from imminent danger on a scenic railroad by George Storm, a newsboy. Grown to young womanhood Helen makes a spectacular double rescue of Storm, now a freight fireman, and of her father and his friends, Amos Rhineland, financier, and Robert Seagrue, promoter, from a threatened collision between a passenger train and a runaway freight. Safebreakers employed by Seagrue, and Capelle, his lawyer, interrupted by Helen while stealing General Holmes' survey plans of the cut-off line for the Tidewater, fatally wound General Holmes and escape. Storm and Helen chase the murderers, who have hidden the plans and manages to inform Seagrue where they are cached.

CHAPTER III.

The death of Helen's father disclosed at once the serious weakness of his monetary affairs. He had developed his valuable railroad properties without capital of his own adequate to finance them. He was the nominal head of great transportation projects; he had been, in truth, the brain and energy of these, but the actual control belonged to eastern bankers who had supplied the funds to put them through. And with General

Holmes' death his daughter was brought face to face with this fact.

In the library of her home the attorneys for the estate were already gathered to discuss its affairs. Amos Rhineland, her father's faithful friend—indeed, the sole friend among the general's many associates that now manifested the slightest interest in the fate of his unfortunate daughter—was present that morning. With him, however, as if to offset the benefit of his presence, was his already criminally compromised nephew, Seagrue.

Helen, who had been summoned to the library, walked down from her room to join the little company.

To Seagrue, who, in apprehension, had absented himself since the night of the tragedy, she never had looked so pleasing as she now did.

Much was in Seagrue's mind and something of it all reflected itself in his face. A score of times his unprincipled recklessness had led him close to criminal lengths; now, it had carried him from a simple suggestion of theft, unscrupulously assented to, to robbery and to murder—the murder of General Holmes himself by Capelle's hired tools. He was as yet too new in his path of crime to feel indifferent to the fearful consequences.

(To be continued)

COMING SALES

Monday, February 21st.
W. C. Blue and T. F. Johnson, south of Washington.
Paul Johnson, 7 1/4 miles east of Washington C. H., on the Waterloo pike.

Tuesday, February 22nd.

TURKS RESISTING THE SLAV HOSTS

Turkish Army That Escaped From Erzerum Engaged.

SCENE NEAR FALLEN CITY

Austro-Hungarian Forces Operating in Albania Are Closing In On Durazzo—Military Activity Noted in the Vicinity of Ypres—Trebizond Said to Be the Objective of the Russians.

London, Feb. 19.—According to a dispatch received here from Budapest, a big battle is raging between the Russians and Turks west of Erzerum. Another dispatch declares that Balburt, on the road from Erzerum to Trebizond, already has been captured by the Russians. The Russians, according to Petrograd advices, are pushing on toward the Pontine mountains.

This would indicate that the main Russian force is bent upon pushing its drive northwestward, with the important Black sea city of Trebizond as their ultimate goal. Balburt is forty miles, and Trebizond 125 miles from Erzerum. The defenders of Erzerum, consisting of four army corps, fled to the west. First reports were that they abandoned the fortress in wild disorder, but later dispatches telling of violent fighting to the west indicate they retreated in order.

There has been considerable artillery fighting around the positions taken by the Germans recently from the British in the vicinity of Ypres and several attempts by the British to recapture lost ground by infantry attacks. Berlin says the attacks were repulsed with heavy casualties. With the exception of a French assault against the Germans south of the Somme, which Berlin also declares was put down, the artillery of both sides has been the sole instrument of warfare along the French front.

Austrians and Italians at various points are still engaged in artillery duels and occasional infantry maneuvers.

THE NICARAGUAN PACT RATIFIED BY SENATE

United States Secures Canal Route and Naval Base.

VOTE ON TREATY, 55 TO 18

Sum of Three Million Dollars in Gold to Be Paid For Concessions Granted to This Country by the Government of Nicaragua—Treaty Also Grants Option of Renewing Ninety-nine Year Lease.

Washington, Feb. 19.—The treaty with Nicaragua, under which the United States acquires a strip of property in Nicaragua known as "the canal route," and also the right to establish a naval base on the gulf of Fonseca, was ratified by the senate by a vote of 55 to 18.

For this concession the United States agrees to pay Nicaragua \$3,000,000. Fifteen republican senators voted to ratify the treaty and five democratic senators voted against ratification.

The grants to the United States by Nicaragua under the terms of the treaty comprise "the executive proprietary rights necessary and convenient for the construction, operation and maintenance of an interoceanic canal by a Nicaraguan route, the lease for ninety-nine years of Great and Little Corn Islands, in the Caribbean sea, and the right to establish a naval base on the gulf of Fonseca." The treaty also grants an option to the United States of renewing the leases and grants for a further term of ninety-nine years. The territory leased is to pass under the laws and sovereignty of the United States. The property granted was not made free of taxes in the treaty proper, but the resolution of ratification carried language by way of an amendment which renders the property "forever free from all taxation or other public charge." The consideration flowing from the

vers, but no notable victories have been won by either side.

In Albania the Austro-Hungarians, reinforced by Albanians, presumably irregulars, have occupied Kavaya, which lies eight miles southwest of Durazzo and three miles from the Adriatic sea. By the capture of this town it would seem that the Teutons nearly have Durazzo surrounded. The gendarmes of Essad Pasha, provisional president of Albania, who defended Kavaya, made their escape from the town and fled on a ship into the Adriatic.

RUMORS OF THE END

Paris, Feb. 19.—There is reason to believe that Germany has made new peace proposals to the entente allies. The report is that Germany has declared its willingness to re-establish generally the status before the war, to cede part of Lorraine to France and guarantee autonomy for Alsace. As to the terms offered on the other fronts there is no information. It is understood that the proposals were accompanied with the threat that Germany would again attempt to crush France if the terms were refused. It is possible that these proposals were immediately refused by the allies.

Three possible courses confront the Kaiser's staff. The older and more cautious element favors the adoption of a pure defensive, holding fast the present lines and defying the entente allies to dislodge the defenders. The younger, more reckless element is for taking a gambler's chance and staking everything on a great offensive on the western front. Even the advocates of this course realize that such an effort would bring an unparalleled orgy of bloodshed, but they argue that if successful it probably would end the war. Between these two extremes is a third element, which favors taking the offensive against Russia.

United States is the payment of \$2,000,000 in United States gold coin, to be applied by Nicaragua upon its indebtedness. This was the provision of the text of the treaty, but the resolution of ratification carries the following language as to how the money is to be used in addition to the reduction of the public debt: "Or other public purposes for the advancement of the welfare of Nicaragua in a manner to be determined by the two high contracting parties."

HOT SHOT

Washington, Feb. 19.—Criticism of the foreign policy of the administration, with special reference to its attitude in the pending negotiations with Germany, was voiced in the senate by Senators Lodge of Massachusetts and Sterling of South Dakota. They made vigorous speeches in support of the Sterling resolution, which opposes acquiescence by the United States in the notification of the central powers of their right to fire on armed merchantmen.

Senator Stone of Missouri, chairman of the committee on foreign relations, followed Messrs. Lodge and Sterling, declaring that the question of arming merchantmen was debatable. He announced that early next week he would make a more extended reply to Senators Lodge and Sterling and respond to the attack made on the foreign policy of the administration by former Senator Root.

Taking up the notice of the German powers that they would exercise the right of firing on armed merchantmen, Senator Sterling charged the administration "with delaying and hesitating while the world was wondering what course would be pursued." He declared acquiescence in the German position "involved consequences more serious than any other that have yet disturbed us, grave as some of them have been."

Senator Lodge said that abandonment by the United States at this time of the principle that merchant-

men may arm for defense would be an unequal act and a step toward war. He insisted that acceptance by this country of Germany's proposals would make the United States the ally of the belligerent whose merchant marine had been swept from the sea.

MURDER CHARGE FACED BY YOUTH

(By American Press)

Ironton, O., Feb. 19.—Frank C. Mowery, a local butcher's helper, who has been located at West Port, a suburb of Cleveland, for the past eighteen months, was arrested here in connection with the murder of Estella Hoxey, victim of the Millbrook Lake mystery at Portsmouth. The police admit that the evidence against Mowery is only circumstantial. On Jan. 29 he telegraphed Miss Hoxey to meet him in Portsmouth. Mowery admits meeting her on that day, but denies any knowledge of the murder.

COAL RATE PROTEST

(By American Press)

Atchens, O., Feb. 19.—Protests against present and proposed intrastate coal tariffs of the Hocking Valley Railway company were sent to the state utilities commission by Charles H. Bryson, secretary of the combined business interests of a dozen towns and cities in the Hocking coal field. A reduction of the present rate of 85 cents is asked.

GLOOMY OUTLOOK FOR A HATCHERY

There is hardly a probability of Fayette county obtaining a fish hatchery, but there is assurance that a number of game preserves may be established in the county if farm owners will come forward and guarantee protection for the game placed upon such preserves.

The committee appearing before the state board, consisted of Hon. Frank C. Parrett, Chas. Allen, Judge Rell G. Allen and Earl McLean, Mr. Reid not being present.

General Speaks confirmed Dr. Kergin's gloomy prophecy of a hatchery and was anxious to take up the problem of "game preserves." He stated that where adequate protection was afforded and surroundings were proper, the state could furnish game of various kinds and pay the expense of feeding the same when necessary. He said Fayette county was exceptionally adapted to the work for various reasons.

THIEVES BUSY

ON SUNNYSIDE

Some unknown thieves have been working overtime on Sunnyside during the past two weeks, with the result that a large number of persons have lost clothing, packages left by deliverymen, jewelry, small change, chickens and numerous other articles which can be picked up by the small thief.

Repeated complaints have been made but so far no arrests have been made, and the thieving continues without cessation.

Indications are that the rascals started into the work by pilfering about premises while the occupants were attending the Sunnyside meetings or up town and have increased in their boldness until now they are operating in broad daylight.

ALLEGED THIEVES WILL FIGHT CHARGE

John Boone and Warren Kilgore, of Jeffersonville, were brought to this city in custody of officers, Friday afternoon, to face charges of stealing two tons of coal from the D. T. & L. on the night of Feb. 14th, the charge having been filed by T. J. Whittaker.

The two men asked for a trial and their cases were set down for Friday, Feb. 25th. Each gave bond in the sum of \$200 for their appearance before the court at that time.

MAN IS ARRESTED ON SERIOUS CHARGE

Hugh Hudnell, white, was taken into custody by the police, Saturday morning, facing a statutory charge in which the name of Ethel Phillips plays a prominent part. The parties had been living together in

a house near "McClureville," it is charged. It is further charged that two small children lived in the same room with the couple.

The man's trial was set for Monday and his bond was fixed at \$500, failing to give which he was taken to the county jail.

WELL KNOWN FARMER DIES AT WAVERLY

Mr. George Gregg received word Saturday morning of the death of his uncle, Mr. Alexander M. Gregg, of dropsy, at his home in Waverly, Saturday night.

Mr. Gregg was a well known farmer and stock buyer of Waverly and had a large acquaintance in Fayette county, where he frequently visited.

The funeral services will be held Tuesday afternoon at one o'clock. Mr. George Gregg and family and Mr. John G. Couch of Bloomingburg, who is a nephew, and daughter, Mrs. F. E. Eichelberger, of Jeffersonville, expect to attend.

Your credit rating is being taken now. See Herald Monday.

FIRE PROTECTION IS STILL AGITATED

Agitation is on in Jeffersonville for a series of cisterns to hold water for fire fighting purposes, and a motor truck with pumps as a means of giving proper fire protection.

The cost of a water works system was found to be upward of \$30,000 and that has been abandoned temporarily while the chain of cisterns and fire truck are now discussed.

Hear that disciple of mirth, Solars, at High School Auditorium, Feb. 21st.

JAMES W. WILLIS DIES SUDDENLY

Mr. James W. Willis died suddenly at the Vance Hotel, in Bloomingburg, Saturday afternoon.

He was the son of the late James M. Willis and is survived by a wife, one sister, Mrs. Humphrey Jones, a nephew, Hon. J. M. Willis, and a niece, Mrs. Scott Hopkins of this city.

Funeral arrangements have not yet been made.

Your credit rating is being taken now. See Herald Monday.

ANOTHER PROBE

By Associated Press. Washington, February 19. — An army investigation has been ordered into the charges made by Senator Robinson that Lieutenant Colonel Reber, head of the aviation service, has been conducting the aerial corps in an inefficient manner.

Fresh supply Mrs. Austin's Buckwheat Flour at your grocers. advt.

STEAMSHIP IS HELD UP

By Associated Press.

Shanghai, China, February 19. — The American steamship China, which left Shanghai yesterday morning for San Francisco, was held up on the high seas by a British auxiliary cruiser and 38 Germans were taken off.

CLANSMEN MUST MOVE OUTSIDE

By Associated Press.

Peking, Feb. 19. — President Yuan Shi-kai, the Emperor-elect, has issued an order that the members of the imperial clan of the Yuan family now living within the Forbidden City are to move outside of the palace grounds. This order, of course, does not apply to his immediate family.

The Yuan clan is a large one, and has been well looked after by the president. However, it would be quite in violation of all precedents for him to permit relatives other than his immediate family to live within the imperial grounds. With his accession to the throne, the emperor must draw a sharp distinction between himself and his clansmen, as now they become his subjects.

In China there has been much criticism of the influence which relatives have had on the emperors. Even now appeals are directed to Yuan Shi-kai that he shall influence the drawing up of the new constitution in such a way as to make it impossible for the women of imperial families to have undue influence upon the emperor.

AMERICA TELLS TURKISH OFFICIALS ABOUT MASSACRE

By Associated Press.

Washington, February 19. — The American Embassy at Constantinople has been authorized to call attention of the Turkish government to the massacre of Armenians. Secretary Lansing announced today.

ASKING RELIEF OF STATE BOARD

By Associated Press.

Columbus, February 19. — Nine civic and commercial organizations of the Hocking Valley and Sunday Creek coal regions today petitioned the Public Utilities Commission to reduce the 85 cent coal carrying rate which they say makes "enormous profit" for the Hocking Valley railroad.

The reduction, it was declared, would produce an increase in tonnage and bring general prosperity to the district.

HUMPHREY JONES ESTATE APPRAISAL

The appraisal of the Humphrey Jones estate, exclusive of the Indiana farm—1200 acres—filed in the probate court this afternoon, totals \$517,489.79.

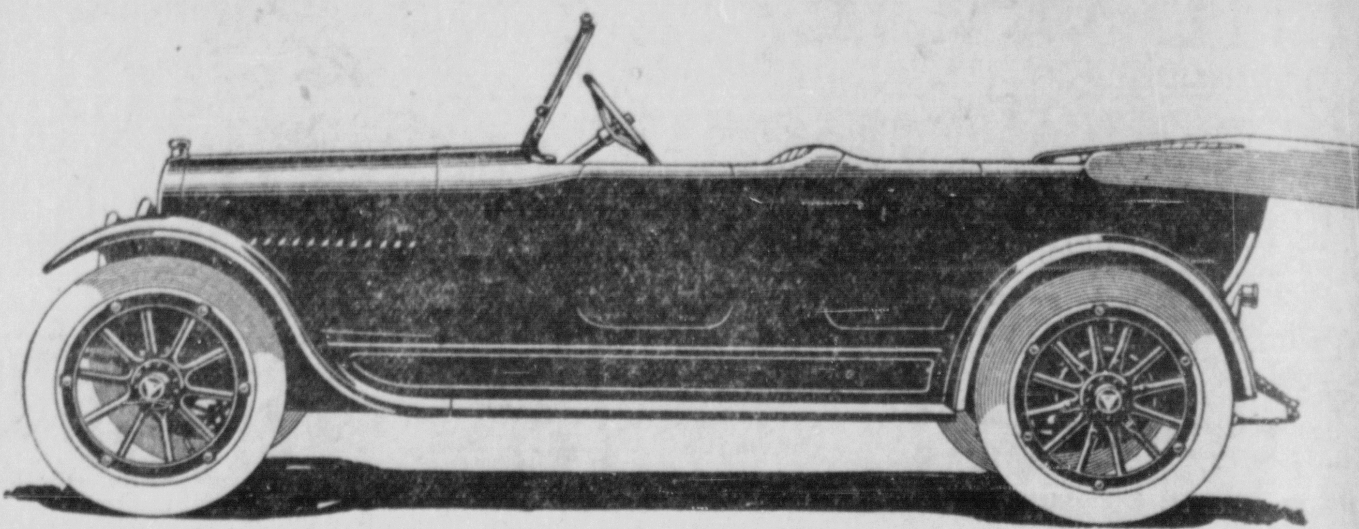

Ceylon's Rice Fields. A surprising condition in Ceylon rice is not grown in nearly sufficient quantities for home consumption. British India ships considerable quantities to Ceylon. There are vast tracts of irritable land on the island now uncultivated which would be suitable for paddy fields, but how to bring about the utilization of this rich land remains unsolved.—Argonaut.

The Term "Minster." The term minster was first applied to churches of outlying English parishes in the tenth century. It is now given to a number of the important cathedrals, York, Ripon, Lincoln and Southwell, and to a few large churches and abbeys, such as Sherborne, Winchester and Westminster.—London Globe.

A Handy Dog. Iva Line—My dog is a regular blacksmith. Ivan Other—How's that? Iva Line—Why, I kicked him the other day and he made a bolt for the door.—St. Louis Post-Dispatch.

Safety First. "Isn't it distressing to think of all the poverty in the world?" "I never do. I confine myself exclusively to thinking of my own."—Life.

Hudson Super-Six

No business man who knows the value of his own time can afford to get along without an automobile. This applies to you.

As a progressive and successful business man, you will naturally seek a high-class car. The Hudson Super-Six is such a car. It is the most recent achievement of the world's foremost automobile engineers.

The motor is the heart of any car. In developing the Super-Six, the Hudson engineers have produced a car which is superior to both eight and twelve cylinder motors. The Super-Six made 100 miles in 80 minutes, 21.4 seconds, averaging 74.67 miles per hour with driver and passenger. The Super-Six was not built for speed. But speed requires power and it also proves endurance.

Exhaustive tests of every conceivable nature have established the dependability of the Super-Six.

The distinguished appearance of the Hudson has been magnified in the Super-Six. The streamline is more pronounced and it presents a trim and snappy appearance.

The beauty and elegance of the Super-Six combined with its mechanical efficiency, makes it a car you will be proud to own.

You are invited to come in and inspect this car, which will arrive within a few days. It will place you under no obligation whatsoever.

BLOOMINGBURG IS LOSER IN GAME

The Bloomingburg High school basketball team, in a hard fought game, with the Washington High school team, at the Y. M. C. A. Friday night, was defeated by the local team, the score at the close standing 27 to 21.

The game was rough but of more than ordinary interest, and some good playing was done on both sides. A crowd of nearly 200 witnessed the sport.

Slagle for Washington and Hicks for Bloomingburg, each played star games and each made six goals.
